Turn on energy savings with natural gas water heaters

With CenterPoint Energy's water heater rebate program, you can efficiently heat water for employees and customers and do the right thing for the environment, all while saving energy and money.

You'll see the difference long-term on your energy bills when you install a commercial natural gas water heater with a 62 percent or greater energy factor.

Your rebate savings heat up even more with greater efficiency installations. Investing in replacement or new equipment is easier with help from CenterPoint Energy's rebate programs.

Water Heater Rebate Program

New construction or replacement of natural gas water heater Equipment	Efficiency	Rebate
Natural gas storage tank water heater (40 gallons or more)	.62 EF and greater	\$50
Natural gas storage tank water heater (less than 40 gallons)	.64 EF and greater	\$50
Natural gas tankless water heater	.80 EF and greater	\$250

Replacement of electric heater with natural gas water heater* Equipment	Efficiency	Rebate
Natural gas storage tank water heater (40 gallons or more)	.62 EF and greater	\$900
Natural gas storage tank water heater (less than 40 gallons)	.64 EF and greater	\$900
Natural gas tankless water heater	.80 EF and greater	\$900

Note: Ratings will be determined using the Air-Conditioning, Heating and Refrigeration Institute (AHRI) system. Directory is available at www.ahridirectory.org. Energy factor (EF) is the ratio of useful energy output from the water heater to the total amount of energy delivered to the water heater.

*CenterPoint Energy will examine natural gas usage history to confirm eligibility for electric replacement rebate levels.

More great energy-saving programs

Continued on back

Natural gas is reliable and green

When you choose high efficiency natural gas equipment for your business, you are making a smart decision for greater cost-savings, comfort and the environment.

Savings and comfort: Natural gas is an abundant fuel that costs about half as much as other fuels, making it the best choice for your budget. And, according to America's Natural Gas Alliance, there is more than a 100-year supply of natural gas in the United States, much of which can be attributed to supply from shale gas fields.

With reliable natural gas service, there's no need to worry about surprise power outages that may create disruptions. Natural gas equipment is available for nearly every application with a wide range of benefits.

Environment: Natural gas is the right choice for a cleaner tomorrow. As a primary fuel that can be used in its natural state rather than undergoing a pollution-producing, energy-wasting conversion process, natural gas is a cleaner burning fuel that leaves about half the carbon footprint compared to electricity.

Start saving now

Rebates are awarded on a first-come, first-served basis until funds are depleted.

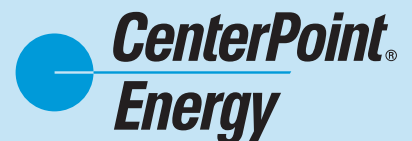

Program funds are anticipated to be available annually and are subject to approval from the Oklahoma Corporation Commission. Please check program website for updates.

Three easy steps

1. Purchase and install qualifying equipment at a location with natural gas service from CenterPoint Energy in Oklahoma.
2. Complete rebate form, available online at CenterPointEnergy.com/OklahomaRebates or by calling 888-498-0409.
3. Submit rebate form with a copy of your dated sales invoice. Invoice/receipt must include brand, model number, serial number, purchaser's name and installation address.

Program deadlines

- Program dates are Jan. 1, 2012 – Dec. 31, 2012.
- In order to secure your rebate, please send in your rebate application within 90 days of installation or by calendar year-end (Dec. 31), whichever comes first.

Always There.®
