

Electric Supply Service

Manage your facility's electric supply costs

About our service

CenterPoint Energy Services offers its customers competitive prices through its relationships with electric retailers. This offering complements the array of natural gas products, services and reliable customer service you have come to expect from CenterPoint Energy Services.

Call today! 800-495-9880

What is Electric Supply Service?*

- Customized, competitive fixed-price or index-price electric supply
- Easy-to-understand contracts with terms up to four years
- Flexible terms tailored to meet specific energy needs
- CenterPoint Energy Services handles sales and pricing quotes; electric retailers provide supply and invoicing

Why should I consider it?

- In a single call, CenterPoint Energy Services can provide complete, customized energy solutions for commercial and industrial businesses
- Take advantage of low-market electric prices
- Get the best of both natural gas and electric offerings through a single point of contact
- Long-term contracts provide price stability despite market volatility

How much will it cost?

- Costs vary based on your choice of fixed-price or index-price electric supply
- Competitive, customized pricing is based on your company's electric profile
- Your CenterPoint Energy Services account executive will provide you a competitive, customized quote and contract

What are some of the other benefits?

- Working with a solid company and an account executive you have come to trust
- Easy-to-understand invoices with a courtesy visit to review first bill
- Online account access to all pricing, market, billing and usage information
- Daily, weekly and monthly energy market information sent to you by e-mail
- Personal attention from your experienced account executive
- Environmentally friendly, renewable energy options

Always There.®

**Offered in deregulated electric markets only.*
