Dial up energy savings

With CenterPoint Energy's rebate programs for boiler systems and components, you can save energy and money on some of the hardest working equipment in your facility. You will also improve the heating efficiency at your facility without sacrificing employee or customer comfort and do the right thing for the environment, while cutting energy costs for years to come.

You'll see the difference long-term on your energy bills when you install a qualifying commercial hot water or steam natural gas boiler system, as well as boiler components. And, get a rebate for immediate cost savings. Investing in replacement or new equipment is easier with help from CenterPoint Energy's rebate programs.

Rebates are available for:

- Commercial space heating
- Vent dampers
- Boiler reset controls
- Boiler cut-out controls
- Fully-modulating or 6-step modulation boiler burners

Boiler and system component rebates

Equipment	Efficiency requirement*	Rebate amount
High-efficiency boilers (minimum 100,000 MMBtu*-12.5 MMBtu)	85% - 91.9%	\$1,400/MMBtuh input; not to exceed 25% of equipment costs
High-efficiency boilers (minimum 100,000 MMBtu*-12.5 MMBtu)	≥92%	\$2,000/MMBtuh input; not to exceed 25% of equipment costs
Fully-modulating or 6-step modulation boiler burners		\$1,000/MMBtuh input; not to exceed 25% of equipment costs
Vent dampers		Up to \$250/boiler; not to exceed 25% of equipment costs
Boiler reset controls		Up to \$150/control system; not to exceed equipment cost
Boiler cut-out controls		Up to \$150/control system; not to exceed equipment cost

Rebates will be paid once boilers are installed.

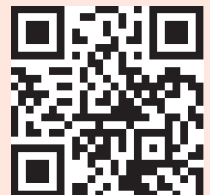

**Boiler efficiency rating to represent the designed/installed operating efficiency of the boiler for the application.*

For boilers larger than 12.5 MMBtu, or those used in process applications, contact us at ArkansasEfficiency@CenterPointEnergy.com or 888-498-0409.

More great energy-saving programs

High-efficiency natural gas water heaters

With CenterPoint Energy's water heater rebate program, you can efficiently heat water while saving energy and money. Install a high-efficiency natural gas tank water heater with a 62-64 percent or greater energy factor and receive a \$75 rebate. Or, install a tankless water heater with an 80 percent or greater energy factor and receive a \$500 rebate.

Continued on back

Gas is simply greener

Now, saving money and our environment go hand-in-hand. Natural gas is a clean-burning fuel that has less impact on the environment.

Compared to other fuels, natural gas releases:

- Less than half the amount of carbon dioxide (a major greenhouse gas)
- Almost no sulfur dioxide (a major cause of acid rain and haze)
- Less than one-third the amount of nitrogen oxides (the primary cause of smog)
- No mercury emissions (makes some fish unsafe to eat)

Measure how your choices impact the environment by visiting our energy costs and emissions calculator at CenterPointEnergy.com/EnergyCalculator.

Rebates for customized energy solutions

The Commercial & Industrial Solutions Program offers FREE water-saving measures that include low-flow spray valves and faucet aerators, as well as rebates toward other high-efficiency equipment and energy-saving processes. Depending on the facility type and operating characteristics, eligible measures may include:

- Boiler retrofits and improvements
- Process efficiency improvements
- Water heating improvements
- FREE low-flow spray valves and faucet aerators
- Other natural gas-related equipment and processes
- Controls
- HVAC systems
- Building thermal improvements

For more information, visit CenterPointEnergy.com/CustomSolutions

Foodservice rebates

Rebates up to \$1,000 are available for 10 different types of commercial foodservice equipment, including broilers, convention ovens, fryers and more.

Start saving now

Rebates are awarded on a first-come, first-served basis until funds are depleted.

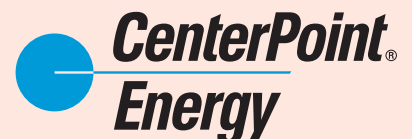

Program funds are anticipated to be available annually and are subject to approval from the Arkansas Public Service Commission. Please check program website for updates.

Three easy steps to apply for your rebate

1. Purchase and install qualifying equipment at a location with natural gas service from CenterPoint Energy in Arkansas or the Texas communities of Texarkana, Nash, Redwater and Wake Village.
2. Complete the rebate form.
3. Submit rebate form with a copy of your dated sales invoice to:
Commercial Rebate Processing
CenterPoint Energy
401 W. Capital Ave., Suite 102
Little Rock, AR 72201

Program deadlines

- Program dates are Jan. 1, 2012 – Dec. 31, 2012.
- In order to secure your rebate, please send in your rebate application within 90 days of installation or by calendar year-end (Dec. 31), whichever comes first.

Always There.®
