

Estimated Time for Completion of Major Line Repairs

As of: 9/24/2008

IMPORTANT NOTE TO CUSTOMERS:

Completion of major line repairs is expected to have electric service back on for most customers. (All large wire re-attached to the poles and energized – excluding the wire from the pole to the home. This will get power back to the area)

In some cases a second line crew will need to come back to replace a transformer (10 or fewer customers) or a service drop (line to single home / business) before all customers have electric service.

Legend

-  Complete
-  By Friday, Sept. 26
-  By Sunday, Sept. 28
-  Power Available, but Substantial Non-CNP Damage
-  Zip Codes
-  Not CenterPoint Service Area
