HIGH MARKS FOR HIGH-EFFICIENCY

Roosevelt Elementary School in Mankato receives \$600 in CenterPoint Energy rebates for two Blodgett natural gas convection ovens

When 300 hungry children line up for lunch, Ronald Schirmers, foodservice director for the Mankato School District, wants to be sure each gets hot food that tastes great. Thankfully the school's two new natural gas Blodgett convection ovens are keeping the children happily fed and keeping energy costs down. And the **\$600 in CenterPoint Energy rebates** for the high-efficiency purchases are helping the school's budget.

Nina Klingel, head cook for Roosevelt Elementary reports that the Blodgett natural gas convection ovens are **easy-to-use and clean**, and **produce quality results** in less time than their previous ovens. Schirmers also likes that the ovens are **reliable** and the **customer service superb**. Because the equipment is so efficient, the school will also be enjoying **energy savings** for years to come.

For more information about how to improve your kitchen and lower your costs with Blodgett natural gas ovens, please contact the North Star Agency. To learn more about CenterPoint Energy foodservice equipment rebates, contact CenterPoint Energy.
