### DELTA RIGGING & TOOLS CHOOSES PEARLAND FOR HEADQUARTERS RELOCATION

October 21, 2010

PEARLAND, Texas — Delta Rigging & Tools leadership recently announced their decision to locate their new headquarters and shared services center to the Shadow Creek Business Center in Pearland, Texas. Taking advantage of its excellent location and top-quality amenities, Delta plans to begin operations in December 2010. The company will occupy approximately 7,800 square feet of the Class A office building at 11233 Shadow Creek Parkway.

“Our primary reason for moving to Pearland is to be closer to more of our large customers and operations in the Houston area,” said Eric Johnson, Vice President of Marketing for Delta Rigging & Tools. “We now have 14 locations around the country, and it is important for us to be closer to the major transportation hubs, including Interstate 10, Hobby Airport and the Port of Houston. Pearland is centrally located to meet all of our needs and has a very attractive business climate.”

Delta Rigging and Tools is one of the largest one-stop providers of lifting products and services within the large and fragmented domestic lifting equipment and rigging industry. Delta offers a complete portfolio of lifting solutions, including hoists, winches, wire rope, synthetic slings, accessory parts and hardware as well as testing, inspection and field services. Delta serves a national footprint of customers and end markets with particular strength in various energy applications throughout the Gulf Coast of Texas, Louisiana and the Rocky Mountain states.

Delta experienced significant growth during the last three years both organically and through acquisitions. Recently, the organization's leadership identified a need for Class A office space for their 25 employees currently located in Lake Jackson, Texas.

Starting early in 2010, the Pearland Economic Development Corporation worked to bring Delta to Pearland.

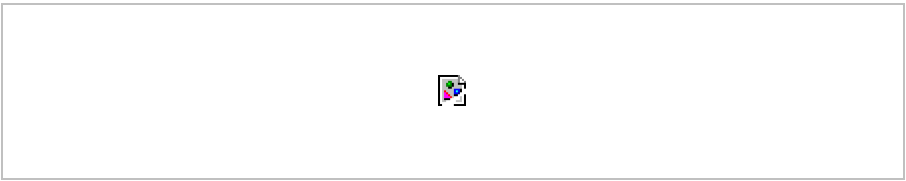

“Delta Rigging and Tools is an excellent addition to our business community,” said Matt Buchanan, executive director of the Pearland Economic Development Corporation. “We are excited they chose Pearland and wish them the best in their new facility.”

Robert Gulley represented Delta Rigging & Tools and Moody Rambin Interests represented the landlord.

#### About PEDC

Established in 1995, the Pearland Economic Development Corporation promotes, assists and enhances the economic development activities and qualities of life within Pearland, Texas. In bringing new and existing businesses to the area, the organization attracts capital investment to add to the city's tax base and helps to increase the number of employment opportunities for residents.
