

Energy Supply Management

Comprehensive energy supply planning strategy

About our service

Energy Supply Management is a comprehensive energy supply planning, procurement and administrative service for large energy users, beginning with thorough needs analysis and ending with a customer-directed energy management strategy.

Call today! 800-495-9880

What is Energy Supply Management?

- Comprehensive energy supply planning, procurement and administrative service for large energy users
- CenterPoint Energy Services acts as an agent to manage energy procurement securing the lowest cost supply from competing sources
- Includes access to our forward price hedging, supply management, and daily delivery management

Why should I consider it?

- Receive technical and administrative resources necessary to control energy costs and reliably manage supply
- Tailored energy management strategy allows customer-specific level of service
- Reduce staffing expenses by outsourcing energy management activities

How much will it cost?

- Fees based on level of service provided

What else do I get?

- Personal attention from your CenterPoint Energy Services account manager
- Ready access to detailed natural gas market information
- Simple, easily understood invoicing and multiple facilities can be billed on a single invoice
- Security of doing business with a solid, experienced, national energy company

Always There.®
