METER 1	TYPE OF EQUIPMENT	QUANTITY	BTU INPUT / UNIT
METER 2	TYPE OF EQUIPMENT	QUANTITY	BTU INPUT / UNIT

Requested delivery pressure \_\_\_\_\_ (7" W.C., 1/2 psi, 2 psi, or other). Elevated pressure agreement required if equipment requires delivery pressure over 2 psi.

### NOTES

- Before a natural gas service line can be installed, you must clearly mark all privately-owned underground facilities including: septic tanks, drain fields, sewer lines, water wells, sprinkler systems, invisible fences, electric lines and pipelines. **CenterPoint Energy and its representatives are not responsible for damage to these items if they are not clearly marked at time of installation.**
- **Billing for the monthly basic charge (based on customer class) will commence within 30 days of service line and meter installation.**
- **RETURN INFORMATION:** Please complete and return this request along with the signed contract, **electronic** copies of full-scalable site plan, and elevations detailing meter location(s) in an **AutoCad** or **PDF** format. If a site plan is not available, include a detailed sketch and legal description. **Your request for service will not be processed until application, contract and electronic plans have been received.**
- **CUSTOMER AUTHORIZATION:** I agree to reimburse CenterPoint Energy for all applicable construction charges pursuant to rates and tariffs on file with the Minnesota Public Utilities Commission. **Out-of-Season construction charges apply from November 1 to March 31.** Applications received after November 1 are not guaranteed service installation within the current year. We reserve the right to modify, change or terminate this program at any time.

Signature of applicant \_\_\_\_\_ Date \_\_\_\_\_
