

2017 AIR SEALING AND INSULATION REBATE APPLICATION

REBATE ELIGIBILITY

To qualify for a CenterPoint Energy rebate, your upgrade project must be completed by a Rebate Eligible Installer. A list of Rebate Eligible Installers is available at www.centerpointenergy.com/insulationrebate. Upgrade work not completed by a Rebate Eligible Installer will not qualify for a rebate.

This rebate program applies only to Minnesota homes heated with natural gas from CenterPoint Energy. Rental properties are eligible to participate in this rebate program; however, it is the responsibility of the property owner to authorize all work to be performed on the home. Rebates will only be paid to the account holder.

To qualify for a rebate, CenterPoint Energy customers must hire a Rebate Eligible Installer, complete a qualifying upgrade project, and submit completed rebate application documents.

Rebates will be issued only for measures installed between January 1, 2017 and December 31, 2017. Rebate qualifications and amounts are subject to change. Completed rebate forms will be processed in the order in which they are received. Rebate funds are limited. Rebates will not be paid if funds are depleted prior to December 31, 2017.

CenterPoint Energy Conservation Improvement Program (CIP) rebate programs may be cancelled or changed at any time. CenterPoint Energy issues cash rebates in the form of checks, not utility bill credits.

QUALIFYING UPGRADE MEASURES

To qualify for a CenterPoint Energy rebate, your upgrade project must be completed by Rebate Eligible Installer.

Qualifying Attic Weatherization Projects:

- Must include air sealing of all accessible attic air leaks including attic access panel, plumbing and electric bypasses, wall top plates, recessed light fixtures and other attic penetrations. No rebate will be issued for attic upgrade projects that do not include sealing of all accessible attic air leaks.
- May also include attic insulation improved from a pre-existing R-value of R-30 or lower to a post R-value of R-49 or higher. No rebate will be issued for attic-insulation-only upgrade projects.

Qualifying Wall Insulation Projects:

- May only be performed in homes with substantial areas of inadequately insulated (R-5 or lower pre-existing) exterior wall space in heated/conditioned areas.
- Must include wall insulation improved from a pre-existing R-value of R-5 or lower to a post R-value of R-11 or higher through all areas of inadequately insulated exterior wall space.
- Attic knee walls are excluded from this portion of rebate program.

Rebate excludes upgrades to new construction, garages, 3-season rooms, basements, rim joists, crawl spaces, sheds, and workshops. All upgrade measures must be installed to manufacturer's specifications and must meet all federal, state and local code requirements.

REBATE AMOUNT

For attic air sealing, the rebate will equal 30% of costs (material and labor) up to a maximum of \$300. For attic air sealing and qualifying attic insulation the rebate will equal 30% of costs (material and labor) up to a maximum of \$500. No rebate will be issued for attic upgrade projects that do not include sealing of all accessible attic air leaks. For qualifying wall insulation, the rebate will equal 30% of costs (material and labor) up to a maximum of \$500. No rebate will be issued for attic-insulation-only upgrade projects.

APPLICATION REQUIREMENTS

Two documents must be submitted to apply for this rebate: 1) 2017 Air Sealing and Insulation Rebate Application completed and signed by Installer Crew Leader and Customer, and 2) Rebate Eligible Installer's itemized invoice.

Required documents must be postmarked by December 31, 2017.

Only qualifying material and labor costs should be included on the 2017 Air Sealing and Insulation Rebate Application. This program ends December 31, 2017.

It is the responsibility of customer and Rebate Eligible Installer to ensure that required application documentation has been filled out completely and accurately, and that the documents have been submitted in a timely manner.

CenterPoint Energy reserves the right to verify installed air sealing and insulation measures.

APPLICATION CHECKLIST

- 2017 Air Sealing and Insulation Rebate Application signed by Installer Crew Leader and Customer
- Copy of Rebate Eligible Installer's itemized invoice
- CenterPoint Energy account number
