

Helping YOU Save Money

Save energy and money on some of the hardest working equipment in your facility with CenterPoint Energy's rebate programs for boiler systems and components. Cut energy costs for years to come, and you'll get a rebate for immediate cost savings.

Boilers and boiler burners for commercial comfort heating

Equipment	Customer rebate	Efficiency rating
High-efficiency packaged boiler (no larger than 12.5 MMBtu)	\$1,400/MMBtu*	83-91%
	\$2,000/MMBtu*	≥92%
Boiler burner §	\$1,000/MMBtu*	Fully modulating or 6-step modulation

Note: Boiler efficiency must be certified by the Air-Conditioning, Heating and Refrigeration Institute (AHRI) directory. See ahridirectory.org.

If boiler is not listed on AHRI, is larger than 12.5 MMBtu or is used in process applications, contact Lance.

*Not to exceed 25 percent of equipment costs

§Eligible for installation on existing boilers only

More great energy-saving programs

Water heaters

Equipment	Customer rebate	Thermal efficiency/ Uniform Energy Factor
Tank water heater < 75,000 Btu/hr	\$75	≥.70 UEF
Tank water heater ≥ 75,000 Btu/hr	\$200 per 100,000 Btuh input not to exceed 25% of equipment cost	≥ 88% thermal efficiency
Tankless water heater	\$500	≥.80 UEF

Note: For rebate to apply, the new equipment must be listed and Uniform Energy Factor (UEF) verified on the current Air-Conditioning, Heating and Refrigeration Institute (AHRI) or ENERGY STAR® websites. See ahridirectory.org or energystar.gov/products.

Replacing an electric water heater with a natural gas water heater is not eligible for a rebate.

Other heating systems

Rebates are also available for new and replacement natural gas forced-air furnace heating systems. Save up to \$600!

Foodservice rebates

Rebates up to \$2,400 are available for 11 different types of commercial foodservice equipment, including combi ovens, convection ovens, fryers and more.

Rebates for customized energy solutions

The Commercial & Industrial Solutions Program offers FREE water-saving measures that include low-flow spray valves and faucet aerators, as well as rebates toward other high-efficiency equipment and energy-saving processes. Depending on the facility type and operating characteristics, eligible measures may include:

- Boiler retrofits and improvements
- Process efficiency improvements
- FREE low-flow spray valves and faucet aerators
- Other natural gas-related equipment and processes
- Controls
- HVAC systems
- Building thermal improvements
- Water heating improvements

Start saving now.

Rebates are awarded on a first-come, first-served basis until funds are depleted.

Program funds are anticipated to be available annually and are subject to approval from the Arkansas Public Service Commission. Please check program website for updates.

Easy steps to apply for your rebate

1. Purchase and install qualifying equipment at a location with natural gas service from CenterPoint Energy in Arkansas or the Texas communities of Texarkana, Nash, Redwater and Wake Village. Rebate will be paid once boiler is installed and operational.
2. For boilers, boiler burners and foodservice equipment, complete the rebate form available online at CenterPointEnergy.com/ARBusinessRebates.
3. Submit rebate form with a copy of your dated sales invoice to:
Commercial Rebate Processing
CenterPoint Energy
401 W. Capitol Ave., Suite 102
Little Rock, AR 72201
4. For heating system and water heater installed by a contractor:
 - Purchase and install qualifying natural gas equipment from your equipment dealer, mechanical contractor, HVAC contractor, plumber or retailer.
 - Have the contractor you worked with for purchase and installation submit a rebate application, including electronic copy of dated invoice, through our online dealer-only rebate processing system at CenterPointEnergy.com/ARBusinessRebates.

Program deadlines

- Program is valid Jan. 1– Dec. 31.
- Rebate applications must be received by Dec. 31 of the year equipment is installed.
