

# Offering YOU Flavorful Incentives

Put money in your customers' pockets, as well as your own, with CenterPoint Energy's Foodservice Incentive Program. Rebates are excellent sales tools to help your customers minimize their cost for high-efficiency natural gas foodservice equipment while also lowering their operating costs. Each time your customers install rebated high-efficiency natural gas foodservice equipment, you earn cash incentives.

## Cash incentives for foodservice trade allies/dealers

Equipment	Efficiency rating	Rebate/unit	Trade ally/dealer incentive/unit
<b>Combi ovens</b> >28 pan	CEW ENERGY STAR®	<b>\$2,400</b>	<b>\$225</b>

Continued on back ...

To secure your rebate, applications and dated sales invoices must be RECEIVED by DEC. 31.

## Equipment and customer eligibility

- CenterPoint Energy commercial customers who install qualifying equipment in CenterPoint Energy's Arkansas service territory
- Equipment must meet program specification requirements. For programs listed with CEW or ENERGY STAR® ratings, refer to [CenterPointEnergy.com/Foodservice](http://CenterPointEnergy.com/Foodservice).
- Rebates apply to new equipment only.
- Replacing electric equipment with natural gas equipment is not eligible for a rebate.

## Start earning trade ally/dealer incentives today!

Three simple steps to incentives:

### 1. Submit a W-9

To comply with tax laws and to pay your incentives, we need a current copy of your W-9 on file every two years. Please fill out an EFT form and incentives will be direct-deposited.

### 2. Receive a trade ally/dealer ID

Once we have your W-9, you'll receive a 6-digit trade ally/dealer ID to track and pay your incentives. Include it whenever you submit rebate applications.

### 3. Send completed application

After installations are complete, submit rebate applications. We will mail your customers' rebates upon processing and send your incentive checks to you quarterly.

Note: See detailed qualifications, rules and requirements on the rebate application.

## Natural gas — the preferred energy choice for cooking

- Precision control for better quality
- Lower start-up costs with foodservice rebates
- High efficiency with lower operating costs
- Environmentally friendly, leaving half the carbon footprint of electricity
- More affordable, with costs approximately half of electricity in Arkansas

[CenterPointEnergy.com/Foodservice](http://CenterPointEnergy.com/Foodservice)

98% of chefs prefer cooking with natural gas.
