

**REBUILD for a**

# STRONGER FUTURE

**QUALIFY FOR TRIPLE REBATES ON NEW NATURAL GAS EQUIPMENT.**

CenterPoint Energy wants to help you get back in business faster and more efficient than ever. We're offering businesses, affected by the widespread property damage in the Twin Cities area in 2020, triple the normal rebate amount on your equipment purchases when you rebuild your business with new, more energy-efficient natural gas equipment. Check out the big savings below.

## REBUILD CUSTOMER TRIPLE REBATES

Measure	Efficiency Requirements	Standard Rebate Amount	Triple Rebate Amount (Not to exceed cost of equipment)
<b>Boilers</b>			
Condensing efficiency hot water boilers	≥ 88% efficiency	\$3,500/MMBtu input	<b>\$10,500/MMBtu input</b>
High-efficiency hot water boilers	85% to 87.9% efficiency	\$1,800/MMBtu input	<b>\$5,400/MMBtu input</b>
Steam boilers (high and low pressure)	≥ 83% thermal efficiency	\$500/MMBtu input	<b>\$1,500/MMBtu input</b>
<b>Boiler system components</b>			
Boiler cut-out controls		\$150/control system; not to exceed equipment cost	<b>\$450/control system</b>
Boiler reset controls		\$150/control system; not to exceed equipment cost	<b>\$450/control system</b>
Boiler turbulators (hot water or steam)		35% of equipment cost and installation costs, not to exceed \$750/boiler	<b>100% of equipment cost and installation costs, not to exceed \$2,250/boiler</b>
Linkageless controls	3% energy savings	\$300/MMBtu input	<b>\$900/MMBtu input</b>
Modulating burner replacements (hot water or steam)		\$450/MMBtu input; cap of 25% of equipment cost	<b>\$1,350/MMBtu input</b>
Pipe insulation (hydronic heat, low and high pressure steam heat) (retrofit only)		\$2.50/lineal ft	<b>\$7.50/lineal ft</b>
Stack dampers (hot water or steam)		\$250/MMBtu boiler input, not to exceed 35% of equipment and installation cost	<b>\$750/MMBtu boiler input</b>
<b>Commercial Laundry</b>			
Ozone/Low Temperature laundry (retrofit only)		\$35/lb washer capacity	<b>\$105/lb washer capacity</b>
Modulating clothes dryers (retrofit only, moisture sensors do not qualify)		\$250/unit	<b>\$750/unit</b>

Energy

Measure	Efficiency Requirements	Standard Rebate Amount	Triple Rebate Amount (Not to exceed cost of equipment)
<b>Other heating systems</b>			
CO garage sensors (retrofit only)		\$100/sensor	<b>\$300/sensor</b>
Condensing condo packs	≥ 90% efficiency, single package vertical unit	\$150/unit	<b>\$450/unit</b>
Condensing unit heaters	≥ 88% thermal efficiency	\$300/heater; not to exceed 25% of equipment cost	<b>\$900/heater</b>
Demand Control Ventilation (DCV) (retrofit only)		\$100/sensor	<b>\$300/sensor</b>
Electric ignition hearth		\$75/hearth	<b>\$225/hearth</b>
Energy recovery wheels and plates	≥ 0.54 effectiveness	\$0.25/CFM outside air through device	<b>\$0.75/CFM outside air through device</b>
Forced-air furnaces	≥ 92% - 93.9% AFUE	\$150/furnace	<b>\$450/furnace</b>
Forced-air furnaces	≥ 94% - 95.9% AFUE	\$300/furnace	<b>\$900/furnace</b>
Forced-air furnaces	≥ 96% AFUE	\$400/furnace	<b>\$1,200/furnace</b>
Garage air curtains		\$20/sq ft garage door area	<b>\$60/sq ft garage door area</b>
Garage door hinges (spring-loaded)		\$15/hinge	<b>\$45/hinge</b>
Infrared heaters	Low-Intensity Tube Type	\$250/heater	<b>\$750/heater</b>
<b>Water heaters</b>			
Water heaters (condensing)	≥ 88% efficiency	\$200/100,000 Btuh input	<b>\$600/100,000 Btuh input</b>
Tank water heater (atmospheric)	≥ .64 UEF (medium usage bin ≤ 55 gal) ≥ .68 UEF (high usage bin ≤ 55 gal) ≥ .80 UEF (high usage bin > 55 gal)	\$75/unit	<b>\$225/unit</b>
Tank water heater (power vent)	≥ .64 UEF (medium usage bin ≤ 55 gal) ≥ .68 UEF (high usage bin ≤ 55 gal) ≥ .80 UEF (high usage bin > 55 gal)	\$250/unit	<b>\$750/unit</b>
Pipe insulation (domestic hot water)		\$2.50/lineal ft	<b>\$7.50/lineal ft</b>
<b>Industrial Process equipment</b>			
Process boiler	Steam: ≥ 83% efficiency Hot Water: ≥ 85% efficiency	\$500/MMBtuh input	<b>\$1500/MMBtuh input</b>
Stack economizer (condensing)		\$500/MMBtuh input	<b>\$1500/MMBtuh input</b>
Stack economizer (non-condensing)		\$1,000/MMBtuh input	<b>\$3,000/MMBtuh input</b>

Measure	Efficiency Requirements	Standard Rebate Amount	Triple Rebate Amount (Not to exceed cost of equipment)
<b>Commercial Foodservice</b>			
Booster water heaters		\$750/unit	<b>\$2,250/unit</b>
Broilers infrared (or upright)		\$600/unit	<b>\$1,800/unit</b>
Charbroilers infrared (or upright)		\$300/unit	<b>\$900/unit</b>
Combi ovens	CEW or ENERGY STAR®	\$2,000/unit	<b>\$6,000/unit</b>
Combi ovens		\$1,500/unit	<b>\$4,500/unit</b>
Convection ovens	CEW or ENERGY STAR®	\$500/unit	<b>\$1,500/unit</b>
Conveyor broilers	CEW	\$750/unit	<b>\$2,250/unit</b>
Conveyor ovens	CEW	\$750/unit	<b>\$2,250/unit</b>
Dishwashers Natural gas heated		\$1,200/unit	<b>\$3,600/unit</b>
Dishwashers* natural gas hot water source	ENERGY STAR®	\$250/unit	<b>\$750/unit</b>
Fryers (with 60% or greater cooking energy efficiency)	CEW or ENERGY STAR®	\$1,000/unit	<b>\$3,000/unit</b>
Fryers (with 51-59% cooking energy efficiency)	CEW or ENERGY STAR®	\$750/unit	<b>\$2,250/unit</b>
Fryers (with 50% cooking energy efficiency)	CEW or ENERGY STAR®	\$500/unit	<b>\$1,500/unit</b>
Griddles	CEW or ENERGY STAR®	\$300/unit	<b>\$900/unit</b>
Kitchen hood demand control ventilation		\$0.30 / hood CFMw	<b>\$0.90 / hood CFM</b>
Pasta cookers		\$200/unit	<b>\$600/unit</b>
Rotating rack ovens	CEW or ENERGY STAR®	\$1,000/unit	<b>\$3,000/unit</b>
Rotisserie ovens (infrared)		\$500/unit	<b>\$1,500/unit</b>
Salamandar broilers (infrared)		\$150/unit	<b>\$450/unit</b>
Steamers - Compartment	CEW or ENERGY STAR®	\$1,000/unit	<b>\$3,000/unit</b>
Steam equipment **		\$250/unit	<b>\$750/unit</b>

\* High temp Conveyor and Door-type only Note: Foodservice equipment must meet program specification requirements.

\*\* Ask about qualifying equipment.

For programs listed with CEW or Energy Star® ratings, refer to [CenterPointEnergy.com/Foodservice](http://CenterPointEnergy.com/Foodservice).
