EQUIPMENT INFORMATION (See back for Boiler System Rebate amounts and sample calculations)

										CenterPoint Energy to Complete
	Date Equipment Installed	Boiler Manufacturer	Model #	Serial #	Boiler Size (BTUH Input)	Quantity	Boiler Type** (Check one that applies)	Installed Efficiency†	Equipment Cost (excluding taxes & labor)	Rebate Amount
1.							HW STM		\$	\$
2.							HW STM		\$	\$
3.							HW STM		\$	\$
4.							HW STM		\$	\$
Rebate total										\$

** Boiler type designation: HW = Hot Water, STM = Steam Boiler

† Boiler efficiency rating to represent the installed operating efficiency of the boiler for the application (i.e. based on designed return water temperature, average input level, steam pressure, etc.).

IMPORTANT REQUIREMENTS

1. Boiler system rebate amounts.

Equipment	Boiler BTU Input	Boiler Installed Efficiency†	Boiler Rebate (per million rate)
Hot water boiler (Condensing)	1 MMBtuh	≥ 88%	\$3,500.00
Hot water boiler (Non-condensing)	1 MMBtuh	85 - 88%	\$1,800.00
Steam boiler	1 MMBtuh	≥ 83%	\$500.00

For inputs other than 1 MMBtuh, convert the Btu to MMBtuh (divide by one million) and multiply that number with the appropriate rebate amount from the charts above.

For example: 399,000 Btu input hot water boiler @ 95% = 0.399 MMBtuh x \$3,500.00 = \$1,396.50
4,500,000 Btu input low pressure steam boiler @ 84% = 4.5 MMBtuh x \$500.00 = \$2,500.00

†Boiler efficiency to represent the installed operating efficiency of the boiler for the application (i.e. based on designed return water temperature, average input level, steam pressure, etc.)

- If you are a trade ally, your six digit ID number is required to participate in the Trade Ally Incentive Program. If you do not know your ID#, please contact CenterPoint Energy at 612-321-4330.
- All qualifying equipment must be fully installed and operational.
- Enclose invoice showing separate figures for equipment, labor, and taxes. Rebates are calculated on equipment cost only, not on taxes, labor, unattached material, piping, or controls.
- All required information must be submitted before rebate can be paid.
- Qualifying equipment must use natural gas provided by CenterPoint Energy in Minnesota for a commercial or industrial account.
- Applications must be received by December 31 of the calendar year in which the equipment is installed. To avoid delays in rebate processing, please submit your completed paperwork as soon as equipment installation is complete.
- Please allow six to eight weeks for rebate processing. Rebate checks will be issued to the name listed on the CenterPoint Energy account.

Mail completed paperwork to:
