# COMMERCIAL & INDUSTRIAL SOLUTIONS PROGRAM

## Steps to participate:

1. Contact CenterPoint Energy's contractor and program administrator, CLEAResult, to schedule a no-cost energy audit.
2. Sign and submit the participation agreement (see back).
3. Work with CLEAResult to formally identify energy efficiency project opportunities, quantify prospective energy savings and reserve CenterPoint Energy incentive funding.
4. Schedule the post-project completion inspection(s) once the work is complete.
5. Receive cash rebates from CenterPoint Energy.

## CONTACT

Kathryn Green  
 Kathryn.Green@clearesult.com  
 918-877-0446

CLEAResult is a contractor and program administrator for CenterPoint Energy.

The CenterPoint Energy Commercial & Industrial Solutions Program helps you understand the benefits of energy efficiency, develop and implement plans for improving efficiency throughout your facility, and leverage financial incentives to make energy-saving upgrades.

## The Commercial & Industrial Solutions Program will help you:

- Use natural gas more efficiently
- Achieve significant, long-term energy savings
- Earn incentives to help offset the initial cost of upgrades

## Who is eligible?

CenterPoint Energy commercial and industrial customers who have a valid natural gas account number.

## What are the benefits?

- The opportunity to earn \$0.95 for each CCF you save as a result of your energy efficiency project(s)\*
- A no-cost facility audit to determine if any natural gas is being used inefficiently

## Measures Eligible for Incentives from the 2017-2019 Commercial & Industrial Solutions Program

<b>Steam Trap Survey &amp; Replacement</b>	Conducting a survey of the facility's steam system and replacing all traps that have failed open.
<b>Steam &amp; Hot Water Pipe Insulation</b>	Insulation of steam or hot water pipes, tanks, steam valves, or fittings.
<b>Recirculating Hot Water Pump Controls</b>	Adding pump controls to a recirculating hot water loop can reduce heat losses and reduce the frequency of the boiler firing rate.
<b>Process Boiler</b>	Process steam and hot water boilers with efficiencies greater than 82 percent may apply for incentives through the Commercial & Industrial Solutions Program.
<b>Linkless Controls &amp; Burner Upgrades</b>	Replacing a process boiler's linked controls with linkless controls.
<b>Process Equipment Upgrades</b>	Any equipment that uses natural gas may be eligible for incentive funding for upgrading to more efficient equipment, such as regenerative thermal oxidizers, direct fire water heaters, economizers, furnaces, and many others.
<b>Space Heating Equipment Upgrades</b>	Equipment such as condensing unit heaters, destratification fans and HTHV heaters. Typical uses are warehouses, garages, and facilities with high ceilings and high air exchange rates.
<b>Steam &amp; Hot Water Pipe Insulation</b>	Insulation of steam or hot water pipes, tanks, steam valves, or fittings.
<b>Process Controls</b>	Installing controls or VFDs on industrial processes, such as ovens or furnaces, that reduce process gas use.
<b>Waste Heat Recovery</b>	Recovering useful heat from HVAC or process systems. For example, recovering heat from thermal oxidation (pollution control) systems and using it to offset heating needs elsewhere in the facility.

This program also covers other process or comfort improvements that result in natural gas savings. For more information, please see the 2017-2019 Commercial & Industrial Solutions Program Manual.

\*Incentives paid will not exceed the sum of the incremental measure costs.

# PROGRAM PARTICIPATION AGREEMENT

CenterPoint Energy's Commercial & Industrial Solutions Program (herein referred to as "Program") promotes energy efficiency through rebates and technical consulting assistance designed to help commercial and industrial customers identify, develop and implement energy efficiency projects for greater energy savings and a healthier bottom line. CLEAResult Corporation, LLC or CLEAResult is a CenterPoint Energy contractor who delivers the Program on behalf of CenterPoint Energy to Participants who may earn rebates for eligible natural gas efficiency savings achieved by projects completed no later than December 31st of each program year. Alternate deadlines up to December 31 of the current program year will be considered on a case-by-case basis. Participants are also eligible to receive technical consulting assistance for completing qualified projects and submitting all required application materials to CLEAResult according to the Program Rules.\*

## PARTICIPANTS UNDERSTAND AND AGREE TO CENTERPOINT ENERGY'S COMMERCIAL & INDUSTRIAL SOLUTIONS PROGRAM TERMS

- Participant agrees to all Program Rules.\*
- Participant will provide CLEAResult with a single point of contact to work with the Program throughout the term of the participation agreement to identify and assess natural gas efficiency measures and implement efficient operations and maintenance practices identified during walk-through assessments.
- Participant will complete and submit required paperwork, including supporting documentation, in a timely manner, according to program rules.
- Participant will consider adoption of cost-effective energy efficient technologies and practices that, without the existence of the Program, would have been cost prohibitive.
- Participant agrees that participation in this Program shall impose no liability on CenterPoint Energy and that, in particular, CenterPoint Energy shall not be liable to Participant or any third party for any direct, indirect, punitive, special, incidental or consequential damages, including, without limitation, lost revenues or lost profits, arising out of or in any way connected with Participants' participation in the Program.
- Participant may be eligible to receive direct installation of specific energy saving devices which are provided at no cost to the Participant. If electing to receive direct installation of energy saving equipment, the Participant agrees to maintain the equipment for a minimum of one (1) year and has 30 days to request the replaced equipment. In the event that any of the energy-saving devices are removed prior to the one year minimum term, the Participant agrees to notify CLEAResult.
