

WHO WE ARE

Frontier Energy (the Program Manager) implements the program for CenterPoint Energy.

CenterPoint Energy offers programs that provide financial incentives, educational resources, and information on energy efficiency measures and technologies. These programs are available to CenterPoint Energy customers, including residents, businesses, and schools. For program information visit CenterPoint Energy's website: <http://www.centerpointenergy.com>.

2018

Multifamily Direct Install Program

PROGRAM DESCRIPTION

CenterPoint Energy's Multifamily Direct Install program offers property owners and managers a free visual audit of existing multifamily properties to determine eligibility for energy efficient direct install measures.

Measures include LED lights and water efficiency measures (faucet aerators for kitchen and bathroom, showerheads, and water heater pipe insulation).

Measures are installed at no cost to the eligible property and residents. Tenant education handouts are provided to residents to describe the benefits of energy efficiency and provide energy saving tips.

Only income-qualified properties at least 5 years old are eligible to participate.

FREE ENERGY EFFICIENCY UPGRADES FOR INCOME-QUALIFIED MULTIFAMILY PROPERTIES

HOW THE PROGRAM WORKS

ELIGIBLE MEASURES

- ▶ LED LIGHTS
- ▶ FAUCET AERATORS
- ▶ EFFICIENT SHOWERHEADS
- ▶ WATER HEATER PIPE INSULATION
