RE: Notice of Planned Participation 40 CFR 423.19 (h)
F.B. Culley Generating Station, NPDES Permit No IN0002259

Southern Indiana Gas and Electric Company (SIGECO), doing business as CenterPoint Energy Indiana South (CEIS) is submitting this 2034 Notice of Planned Participation for Combustion Residual Leachate under 40 CFR 423.19 (h) and providing in this submittal the information required under 40 CFR 423.19 (h). CEIS is planning to permanently cease the combustion coal in both of the coal-fired combustion units at the F.B. Culley Generating Station no later than December 31, 2034.

F.B. Culley Unit 2 is planned for cessation of coal combustion no later than December 31, 2025, and Unit 3 is expected to reach end-of-life for coal combustion no later than December 31, 2034. The plan for cessation of coal combustion in Unit 2 was presented to the Indiana Utility Regulatory Commission (IURC) in CEIS's 2025 Integrated Resource Plan (IRP) report submitted on December 2, 2025. The report is currently under review by the IURC. A copy of the IRP report files is provided with this correspondence and is available at www.centerpointenergy.com/irp.

As noted in the most recent IRP report, the permanent cessation of coal combustion in F.B. Culley Unit 3 was evaluated during the 2025 IRP study with the result of the unit remaining on coal for time-being, in consideration of affordability concerns for the customers and the unprecedented regulatory uncertainty that current exists in the industry. The date by which Culley Unit 3 will cease combustion of coal will be re-evaluated during the 2028 IRP study, which is well in advance of the December 31, 2034 date to cease combustion of coal. The F.B. Culley facility is in compliance with the 2020 ELG rule and does not have any wastewater discharge associated with Culley Unit 3.

I certify that the F.B. Culley facility is in compliance with Bottom Ash Transport Water and FGD Wastewater limits.

Please contact me at Angela.Casbon-Scheller@centerpointenergy.com or 812-491-4787 for any questions or if additional information is needed.

Sincerely,

Angela Casbon-Scheller *AC8*
