

Ladder and Scaffold Safety Tips

- Stay at least 10 feet away from power lines
- Always look up to spot power lines in the area where you plan to place a ladder or scaffold
- Carry long objects horizontally, whenever possible

If a project cannot be performed safely near a live power line, contact us in advance at 713-207-2222 or 713-945-6707 to discuss options for making the work site safe. Learn more at [CenterPointEnergy.com/ElectricSafety](https://www.CenterPointEnergy.com/ElectricSafety).
