CenterPoint Energy Sr. Vice President Kenny Mercado expresses appreciation via a video conference to Houston Food Bank CEO, Brian Greene, for the Food Bank’s support of needy families affected by the COVID-19 pandemic. The need for support in the Food Bank’s 18 county service area is unprecedented, greatly exceeding needs connected with past disasters such as Hurricane Harvey. During the video conference, Mercado virtually presented a check for $25,000 from the CenterPoint Energy Foundation to Greene. The leaders concluded their conversation with “high fives” and pledges for continued partnership.

“The Foodbank, Inc. and our network of partner agencies are committed to supporting families throughout this crisis. The generosity of Vectren and SugarCreek make this work possible. Limited food budgets and small SNAP benefit stipends often don’t allow for families to purchase protein at the grocery store, which makes it one of our most needed items.”

"We are incredibly grateful for the $5,000 COVID-19 rapid response grant that the CenterPoint Energy Foundation has awarded to St. Stephen’s Human Services to support our COVID-19 response.

“We greatly appreciate the grant received from The CenterPoint Energy Foundation as it will be used to help pantries meet the increasing demands caused by individuals and families dealing with unemployment or decreased work hours during the COVID-19 crisis. The pantries were forced to immediately change their operations due to social distancing safety measures put in place and now are prepackaging the food and distributing it in a drive through manner.”

“On behalf of the Change Happens’ Board of Directors, staff, and the clients we serve, thank you CenterPoint Energy for your generous donation to fund our COVID-19 Relief efforts to bring meals to Out-Of-School Time children and to seniors and older persons living in and attending school at Blackshear Elementary School in Third Ward Houston. Your investment will help to feed 380 school students and 120 senior citizens with weekly meals for a month. These vulnerable populations are at increased disadvantaged during these challenging times. Your support helps to ensure that all students have opportunities to succeed academically and helps to improve the quality of life for all. Change Happens is deeply grateful for your support and your enduring commitment to this community.”

Helen Staff, Executive Director
American Red Cross
Monroe, LA

"We are so grateful we can still deliver our mission during these trying times. CenterPoint Energy makes that possible."

Emily Sparks
Regional Philanthropy Officer
“COVID19 created a shortage of blood when schools closed and businesses transitioned to remote work. The American Red Cross quickly responded by hiring additional phlebotomists in order to schedule as many blood drives as possible, by immediately implementing increased safety and disinfecting measures to keep staff, volunteers and blood donors safe and by developing a marketing campaign to recruit blood donors. The Indiana Region was able to keep the blood supply robust as the public responded and blood drive appointments soared. CenterPoint Energy’s support of Blood Services during this pandemic is saving lives, as there is no substitute for blood.”

Beth Baker
Regional Philanthropy Officer
We would like to extend a huge thank you to CenterPoint Energy for their $5,000 gift. With it, we will be able to distribute 35,000 meals to individuals and families affected by the COVID-19 crisis in Comal and Guadalupe Counties.
