

Giving you customized savings

Design energy savings with made-to-order rebates

Our custom rebate program can help commercial and industrial customers reduce costs to purchase and install new, high-efficiency natural gas equipment, cut energy use and operating costs, and offset associated project engineering costs.

Simply submit your ideas for an energy-saving project and detail the associated energy savings and equipment costs before you commit to your purchase. We will then determine if your project qualifies for a CenterPoint Energy custom rebate.

Engineering Assistance Study Funding

If you need further engineering assistance identifying energy efficiency projects, the Engineering Assistance Study Funding Program provides funding of up to \$5,000 to commercial and industrial customers for a portion of engineering fees for study, design, and installation of qualifying energy efficiency projects. Customers may be eligible for up to an additional \$5,000 if qualifying natural gas technologies are installed. Pre-approval of the study and funding are required prior to starting.

Most natural gas-saving projects are eligible for a custom rebate. Some examples are:

- Control systems
- Boiler or process tank insulation
- Curing and coating systems
- Energy recovery wheels and plates
- Heat-treating furnaces
- Process waste heat recovery
- Infrared processing equipment
- Other customized equipment installations
- Pipeline quality biomethane production
- Process burner upgrades
- Process dryers
- Process energy recovery systems
- Reverse osmosis systems
- Thermal curtains
- Tower/stack melting furnaces
- Thermal oxidizers

Custom rebate specifics:

- Your project must be installed and invoiced between Jan. 1-Dec. 31
- Contact CenterPoint Energy before purchasing your equipment for rebate pre-approval
- Equipment must be installed at a location in Minnesota that is served with natural gas from a CenterPoint Energy commercial account

Criteria to determine rebate level:

- Up to 50% incremental equipment cost
- Up to 25% of equipment cost
- A buy-down to as low as a one-year payback

Natural gas: reliable, efficient energy that's better for the environment

CenterPoint Energy is committed to providing low-cost, dependable and efficient energy that's getting cleaner every day.

Efficient: The natural gas delivery system is 91% efficient from production to customer.¹

Innovative: CenterPoint Energy is investing in the long-term solutions through legislation, renewables, carbon capture and recycling, green hydrogen and reduced operational emissions. We're committed to industry-leading carbon emissions goals, including net-zero direct emissions and a 20-30% reduction in customer end-use emissions, both by 2035. [CenterPointEnergy.com/Sustainability](https://www.centerpointenergy.com/sustainability)

More reliable: Delivery of natural gas continues to provide safe and reliable service to customers with few interruptions.²

More affordable: Over the past 10 years, natural gas prices have consistently been 2-3X lower than electricity prices. America's abundance of natural gas resources and CenterPoint Energy's extensive infrastructure base have historically satisfied domestic energy demands while keeping prices more affordable than other fuels.¹

Cleaner: Natural gas is a relatively clean-burning fossil fuel. Burning natural gas for energy results in fewer emissions of nearly all types of air pollutants and carbon dioxide (CO₂) than burning coal or petroleum products to produce an equal amount of energy.²

Abundant: More than 100 years of supply! With 3,368 trillion cubic feet of natural gas and 206 million miles of pipelines, natural gas is available where you need it, when you need it.¹

How to receive your custom rebate

1. Contact CenterPoint Energy to discuss your project plans before you purchase equipment. Contact your account manager or 612-321-4330 (800-234-5800, ext. 4330).
2. Work with your CenterPoint Energy account manager to complete and submit all required paperwork. Your account manager will inform you of the rebate amount for which your project qualifies.
3. Mail completed paperwork to:
Commercial Rebate Processing
CenterPoint Energy
PO Box 59038
Minneapolis, MN 55459-0038
All applications must be received by Dec. 31 of the calendar year in which the equipment is installed. Include copies of the dated invoice and proof of installation. To avoid delays, please submit your paperwork as soon as equipment installation is complete. Program dates are Jan. 1 - Dec. 31.
4. Allow eight weeks for rebate processing.*
5. Terms and conditions apply.

**Rebate amounts vary by equipment. Rebate funds are limited and subject to change without prior notice. Requests will be granted on a first-come, first-served basis. Some utility rebates are taxable under Internal Revenue Service rules. Customers are responsible for all applicable taxes.*

Note: CenterPoint Energy reserves the right to limit any rebate and conduct on-site inspection of installed equipment. All decisions by CenterPoint Energy regarding energy savings, cost savings, rebate amounts, and approvals are final. CenterPoint Energy cannot guarantee energy savings and does not warranty rebated equipment.

Program deadline is Dec. 31.
