

Finding more savings for you

Discover your energy savings

Looking for ways to cut costs for your business? A Natural Gas Energy Analysis can help you identify opportunities to improve energy efficiency.

Enjoy short-term and long-term savings.

Learn how simple operating adjustments or equipment upgrades can generate real energy savings for years to come. In addition, CenterPoint Energy's rebate programs can help reduce your initial costs if you're making equipment upgrades.

Participating customers will also be eligible for free direct-install natural gas-saving measures, including programmable thermostats, energy-efficient faucet aerators and showerheads, and weather stripping for exterior doors.

CenterPoint Energy's certified energy auditor will:

1. Analyze your facility's recent natural gas use (excluding process load)
2. Work with you to identify specific issues and needs
3. Thoroughly inspect your building envelope, including doors, windows and insulation
4. Catalog and review installed natural gas equipment and how it's currently operated
5. Provide a detailed, written report with specific energy-saving recommendations, including:
 - A complete list of your natural gas consumption and related energy consumption from equipment
 - An energy plan that identifies opportunities for natural gas energy savings, including a high-efficiency equipment comparison and recommended upgrades
 - Projected energy savings for specific improvements
 - Estimated costs to implement the improvements
 - Estimated payback time for each suggested improvement
 - Detailed information about CenterPoint Energy's rebate programs and other financial assistance designed to help offset initial costs associated with specific energy improvements

Types of analyses

We offer several levels of analysis to meet the unique needs of your business*, and offer ad hoc services for specific energy use analysis, such as steam trap surveys and infrared scans.

Analyses available

Type of analysis	Scope	Co-pay
Basic analysis*	Basic review of facility with high-level report, covering non-process loads. Most appropriate for small customers.	\$50
Comprehensive analysis**	Comprehensive review of facility with detailed technical report and calculations, covering non-process loads. Most appropriate for mid-to-large customers.	\$200
Ad hoc services*** for specific energy use analysis, such as steam trap surveys for a heating system and infrared scans	Custom analysis and/or additional services targeted to special customer needs and preferences, including infrared scans, steam trap surveys, and analysis of process loads.	Based on services provided

612-321-4330

800-234-5800, ext. 4330

[CenterPointEnergy.com/
EnergyAnalysis](http://CenterPointEnergy.com/EnergyAnalysis)

Ad hoc services are available for customers with specific needs, interests or considerations and are determined in consultation with an energy audit professional, CenterPoint Energy and the customer. There is an extra fee for services beyond the analysis cost described above, but depending on services requested, ad hoc services will provide the customer with other detailed or specific energy use analysis not possible within a typical visit.

Note: The analysis does not include electric consumption, except as related to natural gas equipment, so it is not considered a comprehensive energy audit.

**Basic analysis is only available to customer with a Firm A or Firm B rate class.*

***Customers with a Firm A and Firm B rate class may opt in to the comprehensive-level analysis.*

****Ad-hoc services provides for specialty technical analysis of facilities, based on special needs of the customer, regardless of rate class. Customers with process loads, regardless of size will receive a custom analysis.*

Looking for a comprehensive natural gas and electric audit?

CenterPoint Energy is partnering with Xcel Energy to offer joint customers a comprehensive electric/natural gas energy audit. If you receive your electric service from Xcel Energy, you can request a joint electric/natural gas site visit for a total co-pay of \$500. See website for additional details.

Start saving today

To request a Natural Gas Energy Analysis, call your account manager or our Business Customer Hotline at 612-321-4939 (877-809-3803). Or, visit us online at [CenterPointEnergy.com/EnergyAnalysis](https://www.CenterPointEnergy.com/EnergyAnalysis).

Program deadlines

- Program dates are Jan. 1 - Dec. 31
- Rebate applications must be received by Dec. 31.
- Terms and conditions apply.
