

# Commercial Water Heating Rebate Program

With CenterPoint Energy's Commercial Water Heating Rebate Program, you can efficiently heat water for employees and customers, while saving energy and money. Investing in replacement or new equipment is easier with help from CenterPoint's rebate programs.

## Water heaters

Equipment	Customer rebate	Efficiency rating
<b>Water heaters</b> tank or tankless	<b>\$200/100,000 Btuh input</b>	≥88% efficiency
<b>Tank water heaters</b> ≤75,000 Btuh	<b>\$250/unit</b>	≥.64 UEF (medium usage bin ≤55 gal) ≥.68 UEF (high usage bin ≤55 gal) ≥.80 UEF (high usage bin >55 gal)
<b>Pipe insulation</b> domestic hot water	<b>\$2.50/lineal foot (LF)</b>	Retrofit only

*Note: For tank water heaters ≤75,000 Btuh rebate to apply, new equipment must be listed and Uniform Energy Factor (UEF) or thermal efficiency verified on the current Air-Conditioning, Heating and Refrigeration Institute (AHRI) or ENERGY STAR® websites.*

Multi-family property owner or manager? Take advantage of **BONUS INCENTIVES** (prescriptive measures only).

[MultiFamilyEnergySolutions.com](http://MultiFamilyEnergySolutions.com)

**30% BONUS** Incentive to rebates earned on market-rate multi-family housing

**3X BONUS** Incentive to rebates earned on affordable multi-family housing, up to the equipment cost

## More great energy-saving programs

### Boiler and boiler system components rebates are available for:

- Boiler tune-ups
- Hot water and low- and high-pressure steam boilers
- Process boilers, boiler/burner tune-ups, and stack economizers
- Boiler system components (including turbulators, burners, stack dampers, steam trap replacement/repair, reset and cut-out controls and linkageless controls)

### Other heating systems rebates are available for new and retrofit:

- Forced-air furnaces
- Carbon monoxide garage sensors
- Infrared heaters
- Demand control ventilation
- Single package vertical units
- Commercial pipe insulation
- Condensing unit heaters

### Commercial laundry rebates are available for:

- Ozone laundry
- Modulating clothes dryer

# Natural Gas Energy Analysis

A Natural Gas Energy Analysis can help cut costs for businesses of any size.\*

A certified energy auditor will visit the facility and:

- Inspect the building envelope and installed natural gas equipment
- Examine how the equipment is operating
- Identify opportunities to improve efficiency and potentially qualify for rebates

All analyses receive a detailed report with specific recommendations to help develop an energy-savings plan. Participants are also eligible for free direct-install natural gas-saving measures, including programmable thermostats, energy-efficient faucet aerators and showerheads and weather stripping for exterior doors. Ad hoc services such as steam trap surveys and infrared scans are also available.

## Start saving today.

For more information on the Natural Gas Energy Analysis, call your account manager or our Business Customer Hotline at 612-321-4939 (877-809-3803).

Or, visit us online at [CenterPointEnergy.com/EnergyAnalysis](https://CenterPointEnergy.com/EnergyAnalysis).

*\*Basic analysis is only available to customer with a Firm A or Firm B rate class. Customers with a Firm A and Firm B rate class may opt into the comprehensive-level analysis.*

## Program deadlines

- Program dates are Jan. 1-Dec. 31
- Rebate applications must be postmarked by Dec. 31

# Fueling our future

We're committed to providing safe, reliable and cost-effective energy to our customers, while contributing to a cleaner energy future.

**INNOVATIVE:** We actively invest in innovative, long-term energy solutions through renewables, carbon capture and recycling, green hydrogen and reduced operational emissions.

**CLEANER:** CenterPoint Energy's goal for its direct emissions is Net Zero by 2035, and natural gas is a part of our plan to pursue a cleaner energy future. Emission reductions can be realized through energy-efficiency programs, high-efficiency natural gas appliances and equipment and smart thermostats, among other strategies.

## CenterPointEnergy.com/ Sustainability

**AFFORDABLE:** America has an abundance of natural gas resources. Together with the nation's extensive infrastructure, natural gas can satisfy current and future domestic energy demand while keeping prices affordable and stable for decades into the future.

**ABUNDANT:** According to the American Gas Association (AGA),\* currently, there is an abundant supply and vast infrastructure for transmitting natural gas over 2.6 million miles of pipeline in the United States.

**SAFETY:** America's natural gas utilities invest \$32 billion each year to strengthen safety and efficiency, according to the AGA.\* At CenterPoint, we are focused on maintaining a safe work environment and delivering energy safely to our communities.

**RELIABLE:** Unplanned outages only affect about one in 800 natural gas customers per year, according to the AGA.\*
