

This application covers equipment installed by December 31, 2026

Thank you for participating in CenterPoint Energy's Indiana Business Custom Program. To confirm your eligibility and ensure your application is complete, please review the information below. Remember to keep copies of your completed application and all related invoices for your records. For full program terms and conditions, visit the official CenterPoint Energy website [CenterPointEnergy.com/INBusinessRebates](https://www.CenterPointEnergy.com/INBusinessRebates)

Important: Projects must be preapproved by CenterPoint Energy prior to purchasing or installing equipment. Allow up to four weeks to receive the Preapproval Notice. Projects may not be initiated prior to preapproval by CenterPoint Energy.

Need help?

For assistance completing this application, call 855-220-1399 to speak with an Energy Efficiency Advisor, or email IndianaBizPrograms@CenterPointEnergy.com.

What you will need

- Your CenterPoint Energy natural gas and/or electric account number
- The completed Business Custom Program Application (signed and dated)
- A project description, an itemized cost estimate, manufacturer specification sheets, and all calculations, assumptions and formulas used to determine project energy savings

How to apply

Step 1: determine eligibility

Applicant

Existing facility: for equipment being installed/updated at an existing facility, the applicant must be a current CenterPoint Energy of Indiana ("CenterPoint Energy") natural gas and/or electric business customer.

- For natural gas-saving project(s), applicant must be a natural gas customer on rate 120, 125, 220 or 225.
- For electric-saving project(s), applicant must be non-residential electric customer. CenterPoint Energy customers who have elected to opt out of participating in CenterPoint Energy's energy efficiency programs are not eligible.

New construction: for equipment being installed at a new facility, the applicant must intend to receive natural gas from CenterPoint Energy (for natural gas rebates) and/or electricity from CenterPoint Energy (for electric rebates) on an eligible rate for at least one year.

Project

- Proposed project must have a simple payback of more than one year
- Equipment must not be eligible for prescriptive rebates
- Equipment must be purchased and installed by December 31, 2026
- Application must be postmarked within 90 days of equipment installation

Step 2: complete application

Complete application. unless noted otherwise, all fields must be completed on the application to receive a rebate.

Attach project documentation. ensure that you have attached copies of all project documentation, including:

- Project description
- Itemized cost estimate and all calculations, assumptions and formulas used to determine savings

Step 3: submit application

Submit application. submit your completed application and a copy of all project documentation (see previous step). You may do so one of three ways:

- **Email:** Submit to IndianaBizPrograms@CenterPointEnergy.com
(Note: be sure to include all documents as email attachments.)
- **Mail:** Resource Innovations, ATTN: CenterPoint Energy Rebate Programs | 1232 Fourier Drive Suite 125, Madison, WI 53717
- **Fax:** (608) 829-2723

Allow four to six weeks to receive the Preapproval Notice.

Step 4: receive preapproval & submit final documentation

- 1. Obtain preapproval:** CenterPoint Energy will send you a Preapproval Notice once your Custom project has been reviewed and approved.
- 2. Start your project:** do not purchase equipment or begin any work until you have received preapproval from CenterPoint Energy.
- 3. Submit final documentation:** after completing your project, submit your itemized invoice and the Project Installation Notice (PIN), making sure to highlight any changes from the original project description.

Project and equipment specifications

Project and equipment information is critical to the accurate review and calculation of eligible rebates and project energy savings; be as complete as possible when completing this section. Supporting documentation to help demonstrate project performance characteristics (e.g., energy savings calculations, operational details, system set-points, etc.) should be provided with this form. For process changes and projects not involving equipment replacement, please provide existing equipment information and a complete description of changes.

Existing equipment

Description of existing equipment (compressor, chiller, etc.)	Condition	Quantity	Age	Model/manufacture number (cfm, tons, etc.)	Size	Operating hours (Ex: M-F: 5a-5p, S: 8a-3p)
	<input type="checkbox"/> Operational <input type="checkbox"/> Non-operational					

Proposed equipment

Description of proposed equipment (compressor, chiller, etc.)	Quantity	Model/manufacture number (cfm, tons, etc.)	Size	Are Mfr. specification sheets attached?
				<input type="checkbox"/> Yes <input type="checkbox"/> No

Rebate guidelines

Incentives are calculated based on first year energy savings. Electric projects earn \$0.14/kWh saved and natural gas projects earn \$1/therm saved subject to the following conditions:

- Considered costs are used to determine cost of project. For replacement of equipment that is failed or beyond end-of-useful-life, the considered cost is defined as the cost to purchase and install the energy efficient equipment minus the cost to purchase and install standard equipment defined by ASHRAE 90.1 standards. For retrofit measures, the considered cost is simply the cost to purchase and install the qualifying measures.
- Considered costs should include Contractor labor costs, but should not include internal customer labor costs.
- Incentives may not exceed 50% of the considered cost
- Incentive cannot buy down considered costs below 1.0 years payback
- Natural gas incentives are limited to a maximum of \$100,000 per premise per calendar year
- Electric incentives are limited to a maximum of \$300,000 per project and \$500,000 per premise per calendar year
- Payment of final incentive is subject to project cost-effectiveness as determined by CenterPoint Energy

Program agreement

This Program Agreement sets forth the participation requirements for customers applying for rebates through the Custom Program ("Program"). By signing below, the customer named in the Program Application ("Customer") is agreeing to comply with and be bound by these terms.

Program participation steps: to be considered for rebates offered by the Program, Customer must submit a fully completed Custom Program Application ("Customer Application"), incorporated herein by reference, prior to purchasing or installing any energy efficiency equipment. Upon receipt of all required documentation from Customer and completion of any pre-inspections at the Facility, CenterPoint Energy will review Customer's Application and issue Customer a preapproval notice including the preapproved rebate amount and the project installation deadline. As part of the Customer Application review process, CenterPoint Energy may conduct any site inspection activities necessary to confirm the baseline conditions and anticipated project scope. Customer acknowledges that CenterPoint Energy calculates rebate amounts utilizing the project-specific data which Customer has provided on this Customer Application and that implementation rebates for similar measures may vary from customer to customer based upon specific costs and savings. Failure to provide or complete any of the requested information or program requirements may result in the return of the Customer Application.

After CenterPoint Energy provides written preapproval of the Customer Application, Customer may purchase and install the identified measures. Upon completion of the project, Customer must submit a Custom Project Installation Notice, incorporated herein by reference, to CenterPoint Energy prior to the project installation deadline stated in the preapproval notice.

Terms and conditions: this Program Agreement incorporates by reference the CenterPoint Energy Program Terms and Conditions ("Terms and Conditions") located at [CenterPointEnergy.com/INBusinessRebates](https://www.CenterPointEnergy.com/INBusinessRebates). The Terms and Conditions set forth additional terms governing Customer's participation in the Program including but not limited to limiting the liability of CenterPoint Energy and the Program Administrator, establishing the laws that govern this Program Agreement, and the process for disputes.

Program agreement (cont.)

Entire agreement: the terms and conditions set forth herein, including all attachments and incorporated references, constitute a complete statement of the terms and conditions applicable to the Program and supersede all prior representations or understandings, whether written or oral. CenterPoint Energy and Program Administrator shall not be bound by or be liable for any statement, representation, promise, inducement or understanding of any kind that is not set forth herein.

Program rebate: the Program offers rebates for the installation of eligible measures paid at \$0.14/kWh (electric) and \$1.00/therm (natural gas) for the first year annual energy savings. The proposed project must be an energy efficiency capital investment project that reduces energy consumption with a simple payback of more than one (1) year and does not qualify for incentives through the prescriptive program. Payment of a final incentive amount will be based on CenterPoint Energy's review of the completed project and satisfaction of all eligibility and Program requirements, including without limitation, verified energy savings and project cost-effectiveness and may differ from the preapproved incentive amount. Any amount in excess of the preapproved incentive amount will be subject to availability of Program funds.

Sign application

By signing below, I certify that:

1. As the Customer Representative, I have the authority to bind the Customer to the Program Agreement;
2. I have read, understand, and agree to be bound by and comply with the terms set forth, herein and such other terms as set forth in the CenterPoint Energy Program Terms and Conditions;
3. The information provided to CenterPoint Energy or Program Administrator in and as part of this Application is accurate and complete and I will notify CenterPoint Energy immediately of any changes to the information.
4. The number shown on this form is my correct federal Taxpayer Identification Number (or I am waiting for a number to be issued to me), and
5. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
6. I am a U.S. citizen or other U.S. person, and
7. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

The Internal Revenue Service does not require your consent to any provision of this document other than the certifications required to avoid backup withholding.
