

# Gas Price Update

## Natural gas prices drop again moving into June

Temperatures across much of the country have been mild, causing demand to remain low and allowing natural gas production volumes to quickly rebuild inventories at a faster pace than last year. This storage rebuild is helping to close the year-over-year gap in underground storage stocks. With near-record production, strong domestic natural gas consumption, growing exports, and rebuilding inventories, natural gas prices are low and stable moving into summer.

**Summer is a great time to make energy efficiency upgrades to your facility, saving energy and money now and in the years to come!** CenterPoint Energy offers rebates on high-efficiency natural gas heating systems including forced-air furnaces, condensing unit heaters, infrared heaters, and boilers. We also offer rebates on boiler system components, steam trap repair/replacements, boiler tune-ups, water heaters and custom energy-saving equipment installations. Plus, we have rebates for industrial process equipment. Visit [CenterPointEnergy.com/BusinessRebates](http://CenterPointEnergy.com/BusinessRebates) for a complete list of available rebates, contact your account manager, or call 612-321-4330 (800-234-5800, ext. 4330) for more details.

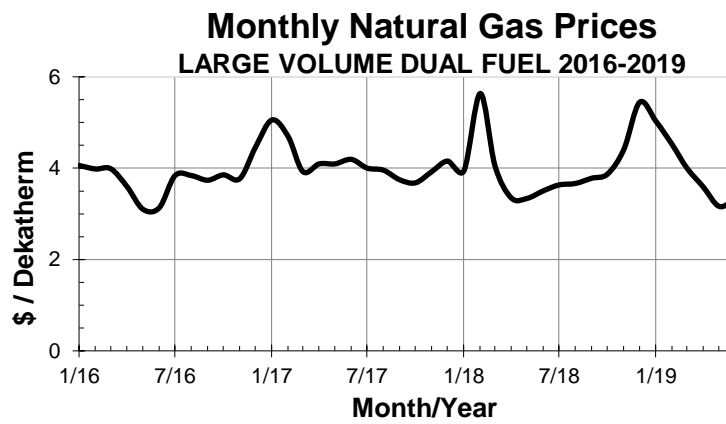

### June Gas Price Information

**Effective Date** **June 1, 2019**

**Large Volume Dual Fuel** **\$3.32**

Note: The price includes CenterPoint Energy's cost of gas for the current month with the Large Volume Dual Fuel delivery charge of \$0.07489/dth.

For information on pricing, call your CenterPoint Energy Account Manager or (612) 321-4330.
