**NOTICE: CenterPoint Energy to begin upgrading natural gas pipelines
along 24th Avenue N. the week of August 10, 2015**

July 31, 2015

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy has begun a multi-year construction project to replace approximately 74 miles of large diameter steel natural gas transmission pipeline known as the Belt Line. Rehabilitation of the Belt Line is important to ensure the long-term reliability and continued safety of the pipeline infrastructure serving hundreds of thousands of customers in the metro area.

As a system upgrade project, Minnesota Limited, LLC., an authorized CenterPoint Energy contractor, will replace 220 feet of 24-inch diameter steel pipe along 24th Avenue N., between 4th Street N. and 3rd Street N (see map for detail). Construction is expected to begin the week of August 10, 2015 and will require approximately one month to complete the work. We will restore the areas affected by our construction in compliance with all applicable federal, state and local regulations.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 140 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas and how to use it safely and efficiently. CenterPoint Energy provides information for you to learn how to be safe around natural gas pipelines at www.CenterPointEnergy.com/BeSafe.
