NOTICE: CenterPoint Energy to relocate natural gas regulator station in your neighborhood April 4 - 17, 2017

March 30, 2017

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Crews from CenterPoint Energy will begin relocating an existing natural gas regulator station in Minneapolis on Tuesday, April 4. Project construction is expected to last until April 17. (Any changes in project dates will be noted on CenterPoint Energy's website at CenterPointEnergy.com/Construction.) Michels Corporation, an authorized CenterPoint Energy contractor, will begin installing the regulator station along the corner of 8th Avenue N. and 2nd Street N. Parking and lane restrictions are required in areas where construction activity is occurring. On 2nd Street N., the easternmost lane will be shifted. Two-way traffic will be maintained, but the bike and parking lanes on 2nd Street N. will be closed at the intersection of 8th Avenue N. In addition, here are the following closures:

- During the weekdays, the intersection of 8th Avenue N. and 2nd Street N. will be open to local traffic and will be maintained by traffic control personnel.
- On the weekends, the intersection will be closed. Traffic cannot pass into 8th Avenue N. from 2nd Street N., but two-way traffic will still be maintained on 2nd Street N. (See map.)

The lane restrictions are necessary to keep both the public and construction personnel safe. Project updates, detailing progress and affected areas will be available at CenterPoint Energy's website.

This construction typically happens in two phases: **Phase 1** consists of relocating the natural gas regulator station. **Phase 2** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates. To learn more about this project or to sign up for weekly construction updates, please visit our Construction Zone website at CenterPointEnergy.com/Construction.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. In addition, you can contact us directly by calling CenterPoint Energy's Information Hotline at 612-321-5369 or our Communications Specialist, Hannah Gullickson, at 612-321-5546. **Please reference the 8th Avenue N. construction project or number 79744489 when calling the Information Hotline.** We appreciate your business and look forward to continuing to serve you.
