NOTICE: CenterPoint Energy to begin upgrading natural gas pipelines in your neighborhood in early April 2016

February 17, 2016

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities. CenterPoint Energy began a multi-year construction project to replace approximately 74 miles of large diameter steel natural gas transmission pipeline known as the Belt Line. Rehabilitation of the Belt Line is important to ensure the long-term reliability and continued safety of the pipeline infrastructure serving hundreds of thousands of customers in the metro area.

As a system upgrade project, an authorized contractor of CenterPoint Energy, will be replacing 17,800 feet of 24-inch natural gas transmission pipe and 5,000 feet of 8-inch distribution pipe along 69th Avenue N., from just west of Zane Avenue N. to Dallas Road. Construction is expected to begin in spring 2016 and will through September 2016 to complete the work. We will restore the areas affected by our construction in compliance with all applicable federal, state and local regulations.

The work will also include the replacement of approximately 30 natural gas service lines. Representatives from CenterPoint Energy will contact residents whose gas service may be affected to schedule the necessary construction work on their property. In addition, your gas meter will be evaluated and replaced if necessary. If the gas meter is located inside your home or building, we will move it to an outside location.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 140 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas and how to use it safely and efficiently. CenterPoint Energy provides information for you to learn how to be safe around natural gas pipelines at www.CenterPointEnergy.com/BeSafe.

To learn more about this project or to sign up for periodic construction updates, please visit our Construction Zone website at: www.CenterPointEnergy.com/Construction. In addition, you can contact us directly by calling CenterPoint Energy's Information Hotline: 612-321-5329 or our Communications Specialist, Ashley Ostersaas: 612-321-5546. Please reference the 69th Avenue N. project or number 71635923.

We appreciate your business and look forward to continuing to serve you.
