Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy has completed a portion of the natural gas work for its Holland Neighborhood project. Between late 2019 and mid-spring 2020, crews from Michels Corporation, CenterPoint Energy's authorized contractor, replaced the project's natural gas mains and connected some of the natural gas service lines to the new mains.

Your service line is newer in age and material and does not need to be replaced at this time. Therefore, this project will be re-visited at a later date. CenterPoint Energy continues to work with the City of Minneapolis to ensure all residents are safe and satisfied with the services they receive.

CenterPoint Energy's authorized restoration contractor, Q3 Contracting, will be in your neighborhood to permanently restore the areas affected by Michels Corporation.

We appreciate your patience during our construction process and wish you a very safe season!
