Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

What is CenterPoint Energy's project?

From March 30 to November 2020, CenterPoint Energy's authorized contractors are continuing to perform work on CenterPoint Energy's Winnetka Avenue 2020 Belt Line Project. Work will take place on Winnetka Avenue between 10th and 42nd Avenues N. and will occur in four phases rather than all at once.

What will happen at Winnetka Ave. & Plymouth Ave.?

From mid-July to late August, the crews will perform work at the dead end of Plymouth Ave. just east of Winnetka Ave. During this time, they will replace the natural gas main, upgrade a natural gas vault, and perform work on the storm sewers. The curb line of the dead end will be shortened to 20 feet west of the driveway of 1224 Winnetka Ave.

During active construction, the dead end of Plymouth Ave. will be closed just west of 1224 Winnetka Ave. N. The crews will work with residents on maintaining local access. A sidewalk will be installed between the new end of the road and Winnetka Ave. to allow pedestrian passage.
