CenterPoint Energy to replace natural gas lines in Golden Valley

Dear Property Owner,

At CenterPoint Energy, we are committed to providing relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

What will CenterPoint Energy do?

Beginning in the week of June 21 and lasting into the summer of 2021, CenterPoint Energy's authorized contractors will work in Golden Valley along the following roads:

- Wayzata Boulevard between Hampshire and Florida Avenues S.
- Florida Avenue S. just south of Laurel Avenue
- Laurel Avenue between Jersey and Florida Avenues S.

Michels Corporation will replace two natural gas mains and connect the natural gas service lines to this new main. Q3 Contracting will restore the areas affected by Michels Corporation's work. Although no full road closures are expected, lane and parking closures will occur. Two-way traffic will be maintained on the roads within the project's routes.

The crews will begin work on Wayzata Boulevard and Laurel Avenue. Work on these streets is expected to last for approximately three weeks, including restoration. The work on Florida Avenue S. will begin on July 19 and last for approximately five weeks, including restoration.

How can I contact CenterPoint Energy?

For more information or to sign up for updates, please visit [CenterPointEnergy.com/Construction](https://www.CenterPointEnergy.com/Construction), click on "Project Sites" and "Golden Valley." Look for future communications via mailings or a door tag left by the CenterPoint Energy inspector. We appreciate your patience as we continue to upgrade our natural gas system, ensuring system reliability for years to come.
