CenterPoint Energy to host a virtual meeting about Audubon Park Neighborhood Project

*Text-to-subscribe for updates regarding this construction project by sending **CNP AUDUBON to 468311***

Dear Property Owner,

At CenterPoint Energy, we are committed in providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Virtual meeting: On Wednesday, July 8, beginning at 5:00 p.m., CenterPoint Energy will host a virtual WebEx meeting to answer questions about the Audubon Park Neighborhood project. You can join via your phone and/or your computer up to 10 minutes before the meeting:

- To join via your phone, call US Toll **+1-415-655-0002** or US Toll free **+1-855-797-9485**. Press the attendee access code **293 173 098**, followed by #.
- To join via your computer, visit our “Minneapolis – Audubon Park Neighborhood” page and follow this link:

Project description: From the week of July 13 to late fall 2020, CenterPoint Energy’s authorized contractors will perform work in Minneapolis’s Audubon Park Neighborhood. Michels Corporation will replace natural gas mains, connect natural gas service lines to the installed mains, and move any inside residential meters to the outside of homes. Q3 Contracting will restore the areas affected by Michels Corporation’s work.

Traffic impacts: The crews anticipate closing Brighton Avenue between Cleveland and St. Anthony Parkway for a limited time. On other streets, lane and parking restrictions are anticipated where active construction is occurring. They are necessary to keep both the public and construction personnel safe. Local access will be maintained.

Connecting service lines to the new mains: As social distancing practices and proper use of PPE, face masks and gloves have become normalized and as customers are willing to allow properly protected personnel into their homes to complete required work to modernize gas facilities, which is essential work, CenterPoint Energy authorized contractors will enter customer homes to complete work only with customer permission. The purpose of this letter is to advise that with customer permission, crews will now enter homes to complete necessary gas meter work. If you choose not to allow crews to enter your home, gas service will not be interrupted, and we will reschedule for a time better suited to concerns you may have. Crews will continue to replace service lines. Crews may have to dig in the ground on your property in the utility easement and next to your home to complete the task of service line replacement.
