## CenterPoint Energy to perform natural gas work on 14<sup>th</sup> St. W. at Louisiana Ave. S. for approx. two weeks

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

**Project description:** In the weeks of August 10 and 18, CenterPoint Energy's authorized contractors will perform work on 14<sup>th</sup> Street W. at Louisiana Avenue S. While Michels Corporation will remove an existing natural gas main, Q3 Contracting will restore the areas affected by Michels Corporation's work. In the week of August 3, the crews will set up their equipment to prepare for the work.

**Traffic impacts:** The crews will alternate the closures on 14<sup>th</sup> Street W. For several business days, the crews will close 14<sup>th</sup> Street W. west of Louisiana Avenue S. For the remaining one and a half weeks, they will close 14<sup>th</sup> Street W. east of Louisiana Avenue S. During these closures, northbound and southbound traffic will be maintained on Louisiana Avenue S. The respective detour routes will lead drivers to 16<sup>th</sup> Street W. from either Maryland or Kentucky Avenues S.

If the crews need to temporarily work in front of driveways during working hours, the crews will work with residents on access. These restrictions are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe.

**Installing replacement gas mains:** According to [the Governor of Minnesota's order](#), gas main replacement is an essential work function. This allows for the modernization of related gas facilities. The gas main work requires excavations in various locations in the right-of-way (front yard) to facilitate the installation work.

We appreciate your patience as we continue to upgrade our natural gas system. CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](https://www.CenterPointEnergy.com/BeSafe). We appreciate your business and look forward to continuing to serve you.
