CenterPoint Energy to replace natural gas lines in Fern Hill

Dear Property Owner,

At CenterPoint Energy, we are committed to providing relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

What will CenterPoint Energy do?

In 2021 and 2022, CenterPoint Energy's authorized contractors will work in St. Louis Park's Fern Hill neighborhood. While Michels Corporation will replace the natural gas mains, connect the natural gas service lines to the new mains, and move any inside residential meters outside, Q3 Contracting will restore the areas affected by Michels Corporation's work. Parking and sidewalk closures may occur.

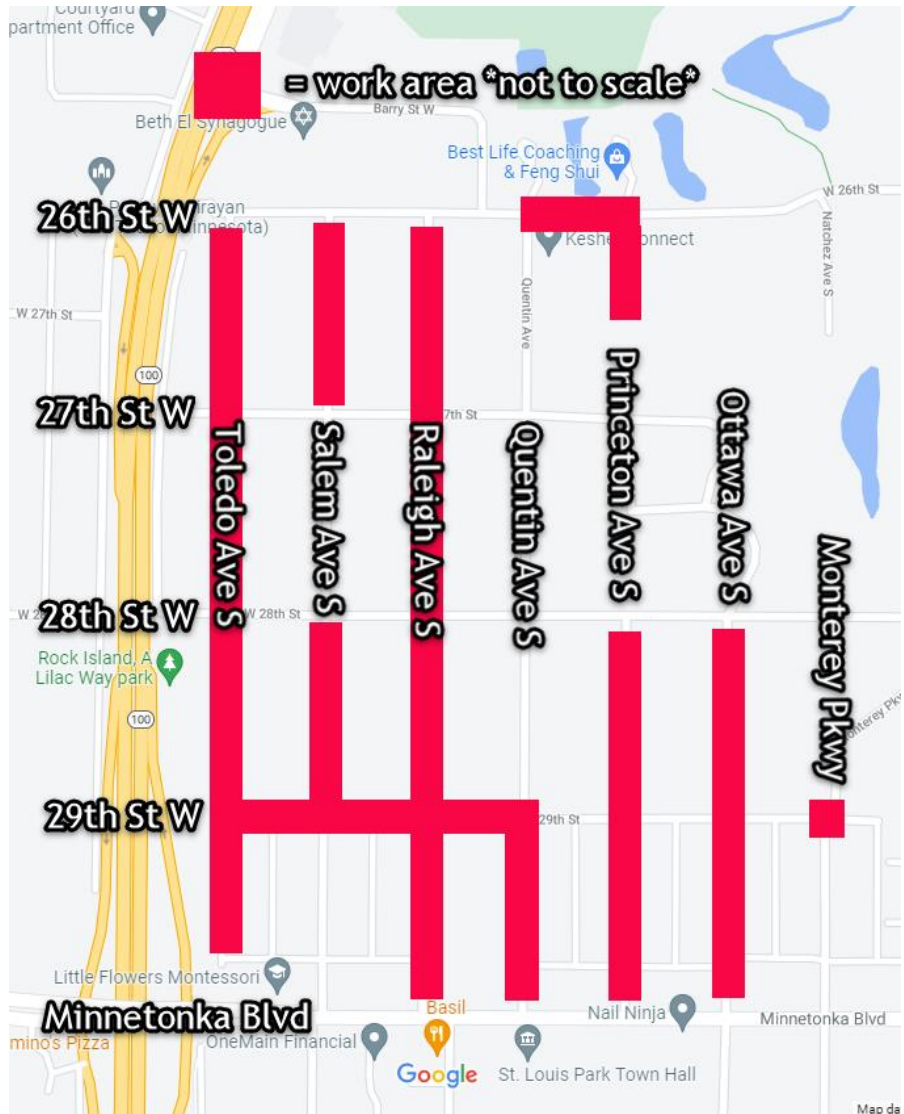

From late October to early November, Michels Corporation will replace only the gas mains along Toledo Avenue S. from 26th Street W. to Minnetonka Boulevard and along Princeton Avenue S. from 26th Street W. to 26th ½ Lane and from 28th Street W. to Minnetonka Boulevard. Q3 Contracting will restore the hard surfaces affected by this year's work. The crews don't plan to disturb any boulevards.

In 2022, they will return for the remaining main replacements and all the service line connections along the project's remaining streets:

- Salem Avenue S. from 26th to 27th Streets W. and from 28th to 29th Streets W.
- Raleigh Avenue S. from 26th Street W. to Minnetonka Boulevard
- Quentin Avenue S. from 29th Street W. to Minnetonka Boulevard
- Ottawa Avenue S. from 28th Street W. to Minnetonka Boulevard
- 26th Street W. from Quentin to Princeton Avenues S.
- 29th Street W. from Toledo to Quentin Avenues S. and at Monterey Parkway

How can I contact CenterPoint Energy?

More information will be provided closer to the 2022 work. To sign up for updates, please visit [CenterPointEnergy.com/Construction](https://www.CenterPointEnergy.com/Construction), click on "Project Sites" and "St. Louis Park." We appreciate your patience as we continue to upgrade our natural gas system, ensuring system reliability for years to come.
