Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Project Description: CenterPoint Energy’s project is anticipated to last from March 30 to late May 2020. Crews from Michels Corporation, CenterPoint Energy’s authorized contractor, will replace natural gas mains and connect natural gas service lines to the new mains. Crews from Q3 Contracting, CenterPoint Energy’s authorized contractor, will restore the areas affected by Michels Corporation’s work.

Connecting service lines to the new mains: This may include service line replacement and relocating gas meters from inside the home to outside. (The timing of this phase depends on updates related to COVID-19.) Customers will experience a short disruption of gas service as the crews are installing the new gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement.

Traffic impacts: On 18th Avenue NE, crews from Michels Corporation will begin at Stinson Parkway working west. Each block will be closed for approximately one to two weeks. Eastbound traffic will be detoured. Crews will notify residents or business owners if the crews need to cross any driveways.

Lane and parking restrictions are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe. Local access will be maintained.
