NOTICE: CenterPoint Energy to finish Nokomis Area project this season

***Text-to-subscribe for updates regarding this construction project by sending
CNP NOKOMIS to 468311***

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Due to coronavirus concerns, CenterPoint Energy is delaying meter work that requires entering customer homes or disrupting customer gas service until further notice.

Project Description: In 2019, CenterPoint Energy began its Nokomis Area project. This year CenterPoint Energy's authorized contractors will return to complete the project. Crews from Michels Corporation will replace the remaining natural gas mains and connect the remaining natural gas service lines to the new mains. Crews from Q3 Contracting will restore the areas affected by Michels Corporation's work.

Connecting service lines to the new mains: On April 6, the crews will begin connecting the project's remaining service lines to the new mains. On the map on the opposite page, work will take place in two areas: 1) between Minnehaha Parkway and 50th St. E. and between 27th and 35th Avenues S. and 2) between 52nd and 58th Streets E. and between Nokomis and 35th Avenues S.

Due to coronavirus concerns, CenterPoint Energy is delaying work that requires entering customer homes, such as moving gas meters outside. Gas service will not be interrupted. Crews will continue to replace service lines. A new service line will be replaced from the new main up to the resident's home. The meter, whether it is currently inside or outside, will not be disrupted. Crews may have to dig in the ground on your property in the utility easement and next to your home to complete the task of service line replacement. At a later date, the crews will come back to add the new meter onto the service line.

For approx. four weeks, Michels Corporation will be performing service line work outside the homes. When the crews return to perform inside meter work and to connect the meter to the service line, the timeline will be provided on our website at [CenterPointEnergy.com/Construction](https://www.CenterPointEnergy.com/Construction).

Traffic impacts: When the crews are connecting the service lines to the new mains, the crews will be working on one side of the road at a time. Parking will not be available on the side where active construction is occurring. These restrictions are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe. Local access will be maintained.

How can I contact CenterPoint Energy? For more information or to sign up for updates, please visit CenterPoint Energy's Construction Zone website at [CenterPointEnergy.com/Construction](https://www.centerpointenergy.com/construction). In addition, you can contact one of the following CenterPoint Energy resources. Please reference the **Minneapolis – Nokomis Area project** or the number **88104238**:

- Communications Specialist, Hannah Gullickson, at 612-321-5546
- Information Hotline at csv.constructionservices@centerpointenergy.com
- Restoration Questions at csv.restoration@centerpointenergy.com

We appreciate your patience as we continue to upgrade our natural gas system. CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](https://www.centerpointenergy.com/BeSafe). We appreciate your business and look forward to continuing to serve you.
