CenterPoint Energy to perform service line work for Richfield 2019 Reconstruction Project

*Text-to-subscribe for updates regarding this construction project by sending
CNP 2019RICHFIELD to 468311*

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Project Description: CenterPoint Energy's Richfield 2019 Reconstruction Project is continuing with work from CenterPoint Energy's authorized contractors. Crews from Michels Corporation replaced the natural gas mains and are continuing to connect the natural gas service lines to the new mains for the next several weeks. Crews from Q3 Contracting will restore the areas affected by Michels Corporation's work.

Connecting service lines to the new mains: As social distancing practices and proper use of PPE, face masks and gloves have become normalized and as customers are willing to allow properly protected personnel into their homes to complete required work to modernize gas facilities, which is essential work, CenterPoint Energy authorized contractors will enter customer homes to complete work only with customer permission.

The purpose of this letter is to advise that with customer permission, crews will now enter homes to complete necessary gas meter work. If you choose not to allow crews to enter your home, gas service will not be interrupted, and we will reschedule for a time better suited to concerns you may have. Crews will continue to replace service lines. Crews may have to dig in the ground on your property in the utility easement and next to your home to complete the task of service line replacement.

Note: If you've already had your service line replaced, you may disregard this letter.

Traffic impacts: When the crews are connecting the service lines to the new mains, the crews will be working on one side of the road at a time. Parking will not be available on the side where active construction is occurring. These restrictions are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe. Local access will be maintained.
