CenterPoint Energy to replace natural gas lines on Jonathan Carver Parkway this spring

Dear Property Owner,

At CenterPoint Energy, we are committed to providing relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Project description: From Monday, March 15 to late spring 2021, CenterPoint Energy's authorized contractors will work in Carver along Jonathan Carver Parkway from Spring Creek Drive to 4th Street W. While Michels Corporation will replace the natural gas main, connect the natural gas service lines to the new main, and move any residential inside meters outside, Q3 Contracting will restore the areas affected by Michels Corporation's work outside the limits of Carver County's "Jonathan Carver Parkway (County Highway 11)" project.

Traffic impacts: Work will happen in segments rather than all at once. Lane, road and parking closures may occur and will be detailed on our website closer to the project's start date. CenterPoint Energy's traffic plans will happen in coordination with Carver County's project.

These closures are necessary to keep the crews and the public safe. We appreciate your patience as we continue to upgrade our natural gas system, ensuring system reliability for years to come.

How can I contact CenterPoint Energy? For more information or to sign up for updates, please visit [CenterPointEnergy.com/Construction](https://www.CenterPointEnergy.com/Construction). In addition, you can contact one of the following resources:

- Questions about construction projects? Call our Communication Specialist at 612-321-5546.
