## NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood June 24 – late August 2019

*Text-to-subscribe for updates regarding this construction project by sending **CNP GRANDSTNE** to **468311***

- CenterPoint Energy will be replacing an existing natural gas distribution main and service lines with modern materials in Minneapolis from the week of June 24 to late August 2019.
- Project construction will occur along Grand Street NE between Lowry Avenue NE and 28th Avenue NE and between 29th and 31st Avenues NE, and along 26th Avenue NE between Randolph Street NE and California Street NE. Work will occur in segments rather than all at once.
- Lane restrictions and road closures are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe.
- If any closures are necessary, they will be minimized. Local access will be maintained.
- **For more information or to sign up for weekly updates, please visit CenterPoint Energy's Construction Zone website at [CenterPointEnergy.com/Construction](http://CenterPointEnergy.com/Construction).**

## **NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood June 24 – late August 2019**

June 17, 2019

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

From the week of June 24 to late August 2019, CenterPoint Energy's authorized contractor, Michels Corporation, will be replacing natural gas mains and connecting natural gas service lines to the installed mains in Minneapolis along Grand Street NE between Lowry Avenue NE and 28th Avenue NE and between 29th and 31st Avenues NE, and along 26th Avenue NE between Randolph Street NE and California Street NE.

Construction will happen in three phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is connecting the individual customer gas service lines to the new gas distribution main. This may include service line replacement and relocating gas meters from inside the home to outside. Customers will experience a short disruption of gas service as the crews are installing the gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. **Phase 3** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates.

Lane restrictions will be anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe. If any closures are necessary, they will be minimized. Local access will be maintained. To sign up for weekly construction updates, please visit our website at [CenterPointEnergy.com/Construction](http://CenterPointEnergy.com/Construction).

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](http://CenterPointEnergy.com/BeSafe). In addition, you can contact one of the following CenterPoint Energy resources:
