CenterPoint Energy to replace natural gas lines on 6th Street N. and 1st Avenue N.

Dear Property Owner,

At CenterPoint Energy, we are committed to providing relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Project description: From February 2 to late March 2021, CenterPoint Energy's authorized contractors will work in Minneapolis along 6th Street N. between 2nd Avenue N. and Hennepin Avenue and along 1st Avenue N. between 5th and 6th Streets N. While Michels Corporation will replace the natural gas main, connect the natural gas service lines to the new main, and move any inside commercial meters outside, Q3 Contracting will restore the areas affected by Michels Corporation's work.

Traffic impacts: Lane and parking restrictions are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe:

- From approximately February 2 to February 12, the crews will work on 1st Avenue N. from 5th to 6th Streets N. and across the intersection of 1st Avenue N. and 6th Street N. While two-way traffic will be maintained during construction on 1st Avenue N., parking will be restricted on both sides of 1st Avenue N. On 6th Street N. at 1st and 2nd Avenues N., the crews will alternate the crosswalk closures to accommodate pedestrian access.
- From approximately February 15 to 22, the crews will work on 6th Street N. between 2nd Avenue N. and Hennepin Avenue. While construction will take place in the north lane of 6th Street N. on the side of Butler Square, traffic can continue to travel in one lane heading one-way on 6th Street N. Parking will be restricted on the north side of 6th Street N.
- From approximately February 23 to March 8, the crews will work on 6th Street N. between 1st and 2nd Avenues N.
- From approximately March 9 to 26, the crews will work on 2nd Avenue N. between 5th and 6th Streets N. During active construction on the south side of 2nd Avenue N., two-way traffic will be maintained on 2nd Avenue N. while parking will be restricted.

We appreciate your patience as we continue to upgrade our natural gas system, ensuring system reliability for years to come.
