CenterPoint Energy's 2020 Pipeline Inspection Project

August 10, 2020

Dear Property Owner,

CenterPoint Energy will be performing an electrical corrosion control survey on our natural gas pipeline. Pipeline inspections are mandated by Department of Transportation (DOT) regulations to routinely monitor and inspect our pipelines.

From Cambridge to Coon Rapids, a crew of about 2 or 3 CenterPoint Energy employees will be walking the length of CenterPoint Energy's pipeline. This process will begin in the week of August 24 and last into mid-October 2020. The crews may walk along the pipeline's length a couple of times throughout the project. They will have equipment to check that the pipeline is cathodically protected. By performing these inspections on a routine basis, pipelines will continue to operate safely for years to come.

If you have any questions, please visit our Construction Zone website at [CenterPointEnergy.com/Construction](https://www.CenterPointEnergy.com/Construction). In addition, you can contact us directly by calling CenterPoint Energy's Communications Specialist, Hannah Gullickson, at 612-321-5546.

We appreciate your patience as we continue to upgrade our natural gas system. CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](https://www.CenterPointEnergy.com/BeSafe). We appreciate your business and look forward to continuing to serve you.

Sincerely and with best regards,

Hannah Gullickson
