## CenterPoint Energy will replace natural gas main on southbound lane of Louisiana Ave. S.

Dear Property Owner,

At CenterPoint Energy, we are committed to providing relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

### ***Where will the crews be working?***

Beginning on Monday, November 30 and lasting for three or four weeks, CenterPoint Energy's authorized contractors will replace a natural gas main in one southbound lane on Louisiana Avenue S. between Oxford Street and Louisiana Circle. While Michels Corporation will replace the natural gas main, Q3 Contracting will restore the areas affected by Michels Corporation's work. This work is in preparation for the City of St. Louis Park's [Louisiana Avenue Road/Bridge Reconstruction](#) project for 2021.

### ***What are the traffic impacts?***

During this time, two-way traffic will be maintained on Louisiana Avenue S. and on Oxford Street. The crews will have a lane closure of southbound Louisiana Avenue S. While the southbound sidewalk on Louisiana Avenue S. will be closed, the northbound sidewalk will remain open. When the crews are working on Louisiana Circle, drivers can travel in and out.

During active construction on Louisiana Circle and on Oxford Street, parking will be prohibited on both sides of these streets. On Oxford Street, parking will be prohibited for approximately 500 feet at Louisiana Avenue S.

### ***How can I contact CenterPoint Energy?***

For more information or to sign up for updates, please visit [CenterPointEnergy.com/Construction](#). In addition, you can contact one of the following:

- Questions about construction projects? Call Communication Specialist at 612-321-5546.
- Questions about restoration? Email or call at [csv.restoration@centerpointenergy.com](mailto:csv.restoration@centerpointenergy.com) or 612-321-5477.
- All other questions, please email or call [csv.constructionservices@centerpointenergy.com](mailto:csv.constructionservices@centerpointenergy.com) or 612-321-5369.

By upgrading these pipelines, they will continue to operate safely for years to come. CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](#). We appreciate your business, look forward to serving you, and wish you a safe and well season.
