## **NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood August 21 – mid-November 2017**

August 16, 2017

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities. CenterPoint Energy will begin replacing the natural gas system on Monday, August 21, 2017. Project construction is expected to last until mid-November 2017, and the affected areas are featured on the reverse side of the page. Michels Corporation, an authorized CenterPoint Energy contractor, is anticipated to begin the replacement of the existing natural gas mains along the following streets:

- Park Avenue N. from E. Bowler Street to E. Minnesota Street
- Waterville Avenue N. from E. Bowler Street to E. Minnesota Street
- Montgomery Avenue N. from E. Bowler Street to E. Minnesota Street
- E. Bowler Street from Lexington Avenue N. to Montgomery Avenue N.
- E. Solberg Street from Park Avenue N. to Cordova Avenue N.
- E. Washington Street between Park Avenue N. and Waterville Avenue N.
- E. Tyrone Street between Lexington Avenue N. and Cordova Avenue N.
- E. Minnesota Street between Park Avenue N. and Waterville Avenue N.

Parking and lane restrictions are required in areas where construction activity is occurring and is necessary to keep both the public and construction personnel safe. Project updates, detailing progress and affected areas will be available at CenterPoint Energy's website at [CenterPointEnergy.com/Construction](http://CenterPointEnergy.com/Construction).

Construction will happen in three phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is connecting the individual customer gas service lines to the new gas distribution main. This may include service line replacement and relocating gas meters from inside the home to outside. Customers will experience a short disruption of gas service as the crews are installing the gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. **Phase 3** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates. CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](http://CenterPointEnergy.com/BeSafe). In addition, you can contact us directly by calling CenterPoint Energy's Information Hotline at 612-321-5369 or our Communications Specialist, Hannah Gullickson, at 612-321-5546. **Please reference the Phase I construction project or number 80329944 when calling the Information Hotline.** We appreciate your business and look forward to continuing to serve you.
