NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood June 18 – mid-August 2018

June 12, 2018

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy will be replacing the natural gas system in coordination with the City of Minneapolis's "Oak Street Protected Bikeway Project," which will take place in 2018. CenterPoint Energy's construction is expected to begin on June 18 and will last until mid-August 2018. Parking and lane restrictions are required in areas where construction activity is occurring and is necessary to keep both the public and construction personnel safe. Michels Corporation, an authorized CenterPoint Energy contractor, will replace the existing natural gas mains along the following streets:

- Oak Street SE between Delaware Street SE and Essex Street SE
- Harvard Street SE at Delaware Street SE
- Delaware Street SE between Harvard Street SE and Oak Street SE

Construction will happen in three phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is connecting the individual customer gas service lines to the new gas distribution main. This may include service line replacement and relocating gas meters from inside the home to outside. Customers will experience a short disruption of gas service as the crews are installing the gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. **Phase 3** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates. To learn more about this project or to sign up for weekly construction updates, please visit our Construction Zone website at CenterPointEnergy.com/Construction.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. In addition, you can contact us directly by calling CenterPoint Energy's Information Hotline at 612-321-5369 or our Communications Specialist, Hannah Gullickson, at 612-321-5546. **Please reference the Oak Street SE construction project or number 85823181 when calling the Information Hotline.** We appreciate your business and look forward to continuing to serve you.
