NOTICE: CenterPoint Energy to perform Josephine Ave. and 64th St. W. Belt Line Project this summer 2020

***Text-to-subscribe for updates regarding this construction project by sending
CNP JOSEPHINE to 468311***

Dear Property Owner,

At CenterPoint Energy, we are committed to providing relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Project description: From mid-May to the end of summer 2020, CenterPoint Energy's authorized contractor, Minnesota Limited, will perform work on CenterPoint Energy's natural gas main in Edina along the following roads in the following order: Normandale Road from 69th to 66th Streets W.; Josephine Avenue from 66th to 64th Streets W.; and 64th Street W. from Josephine to Holborn Avenues. Crews from Q3 Contracting, CenterPoint Energy's authorized contractor, will restore the areas affected by Minnesota Limited's work. Overhanging trees along the project corridor will be trimmed in April prior to the steel gas main replacement project. With this project, no CenterPoint Energy employee or a CenterPoint Energy contractor will be entering homes.

Virtual meeting: On Wednesday, April 15, from 6:00 to 7:00 p.m., CenterPoint Energy and the City of Edina will be hosting a virtual WebEx meeting to answer questions about the project. You can join via your phone and/or your computer up to 10 minutes before the meeting:

- To join via your phone, call US Toll **+1-415-655-0002** or US Toll free **+1-855-797-9485**. Press the attendee access code **296 794 681**, followed by #.
- To join via your computer, follow this link:

Traffic impacts: Work will occur in segments rather than all at once. One or two blocks will be closed at a time for a few weeks at a time. When the crews cross an intersection, each crossing will take approx. a few business days. More details will be added to CenterPoint Energy's website closer to the project's timeline. Lane and parking restrictions are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe.

How can I access my home? Local access will be maintained. When the crews need to cross a resident's driveway, the resident will be notified by the project's foreman or inspector. Garbage and mail services will be able to access the resident's home.

We appreciate your patience as we continue to upgrade our natural gas system. CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](https://www.centerpointenergy.com/BeSafe). We appreciate your business and look forward to continuing to serve you.
