## **NOTICE: Construction to occur on the 2800 & 2900 blocks of 15<sup>th</sup> Ave. S. for CenterPoint Energy's Minneapolis 2019 Belt Line**

July 24, 2019

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

As part of CenterPoint Energy's Minneapolis 2019 Belt Line Project, CenterPoint Energy's authorized contractor, Minnesota Limited, will be installing natural gas main and restoring the areas affected by their construction on the 2800 and 2900 blocks of 15th Avenue S. Crews began work at E. Lake Street on Monday, July 22, and are working north. Work in this area is anticipated to happen for approximately four weeks.

The road in this area will be closed to through traffic. On 15th Avenue S., parking will be prohibited on both sides from just north of the Greenway south to E. Lake Street. Parking will be available on the northern 300 feet of the 2800 block of 15th Avenue S. Construction activity will have minimal impact on alley access. Our construction site staff will work with individual residents/customers to accommodate personal schedules where we can.

When the crews cross E. Lake Street and E. 29th Street, they will cross one intersection at a time and keep the other open. Each crossing will take approximately one week. Eastbound and westbound traffic will be reduced to one lane in each direction. Any changes in our schedule may be due to the crews' progress, weather and agreements between CenterPoint Energy and the City of Minneapolis. Lane restrictions and road closures are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe.

To sign up for weekly construction updates, please visit our website at [CenterPointEnergy.com/Construction](http://CenterPointEnergy.com/Construction). CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](http://CenterPointEnergy.com/BeSafe). We appreciate your business and look forward to continuing to serve you. In addition, you can contact one of the following CenterPoint Energy resources:
