NOTICE: CenterPoint Energy to upgrade natural gas Belt Line system in your neighborhood early June – mid-July 2019

May 28, 2019

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

From the week of June 3 or 10 to mid-July 2019, CenterPoint Energy's authorized contractor, Michels Corporation, will be replacing an existing natural gas distribution main with modern materials in Richfield.

Project construction will occur along Thomas Avenue S. between W. 76th Street and W. 78th Street. This area will be closed to through traffic. Detour signs will be on site. Local access will be maintained to and from residences. Parking will be prohibited on both sides of Thomas Avenue S. during construction.

W. 77th Street will be open to eastbound and westbound traffic for the majority of the project. When the crews install the natural gas main across it, they will close eastbound and westbound traffic for approximately a few business days.

These closures are necessary to keep both the public and construction personnel safe. CenterPoint Energy's authorized contractor, Q3 Contracting, will restore the areas affected by Michels Corporation's construction.

To sign up for construction updates, please visit our website at CenterPointEnergy.com/Construction. CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe.
