NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood July 15 – mid-September 2019

*Text-to-subscribe for updates regarding this construction project by sending **CNP UNIVERSITY to 468311***

- From the week of July 15 to early or mid-September 2019, CenterPoint Energy's authorized contractor, Michels Corporation, will be replacing natural gas mains and connecting natural gas service lines to the installed mains in Minneapolis. Construction will take place along University Avenue SE between 16th and 23rd Avenues SE and along Oak Street SE between 4th Street SE and University Avenue SE. Work will occur in segments rather than all at once.
- Lane restrictions and road closures are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe.
- If any closures are necessary, they will be minimized. Local access will be maintained.
- CenterPoint Energy's authorized contractor will restore the areas affected by our work outside the city construction zone—typically the boulevard, sidewalks, lawns and roads.
- **For more information or to sign up for updates, please visit CenterPoint Energy's Construction Zone website at CenterPointEnergy.com/Construction.**

NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood July 15 – mid-September 2019

July 9, 2019

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

From the week of July 15 to early or mid-September 2019, CenterPoint Energy's authorized contractor, Michels Corporation, will be replacing natural gas mains and connecting natural gas service lines to the installed mains in Minneapolis. Construction will take place along University Avenue SE between 16th and 23rd Avenues SE and along Oak Street SE between 4th Street SE and University Avenue SE.

Construction will happen in three phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is connecting the individual customer gas service lines to the new gas distribution main. This may include service line replacement and relocating gas meters from inside the home to outside. Customers will experience a short disruption of gas service as the crews are installing the new gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. **Phase 3** is the restoration of disturbed areas affected by our work outside the city construction zone—typically the boulevard, sidewalks, lawns and roads.

Work will occur in segments rather than all at once. Lane restrictions will be anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe. If any closures are necessary, they will be minimized. Local access will be maintained. To sign up for construction updates, please visit our website at CenterPointEnergy.com/Construction.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. In addition, you can contact one of the following CenterPoint Energy resources:

- Communications Specialist, Hannah Gullickson, at 612-321-5546
- Information Hotline at csv.constructionservices@centerpointenergy.com
- Restoration Questions at csv.restoration@centerpointenergy.com

Please reference the University Avenue SE project or number 88725805. We appreciate your business and look forward to continuing to serve you.
