NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood Oct. 4 – approx. Nov. 23, 2018

September 14, 2018

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy will begin replacing the natural gas system in Edina in the week of Oct. 4, 2018. CenterPoint Energy's project construction is expected to end in the week of Nov. 19, 2018. The affected areas are featured on the reverse side of the page. Michels Corporation, an authorized CenterPoint Energy contractor, will replace the existing natural gas mains along selected streets between W. 62nd St., W. 64th St., Concord Ave. and Garrison Lane. Parking and lane restrictions are required in areas where construction activity is occurring and is necessary to keep both the public and construction personnel safe. To learn more about this project or to sign up for weekly construction updates, please visit our Construction Zone website at CenterPointEnergy.com/Construction.

Construction will happen in three phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is connecting the individual customer gas service lines to the new gas distribution main. This may include service line replacement and relocating gas meters from inside the home to outside. Customers will experience a short disruption of gas service as the crews are installing the gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. **Phase 3** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates. CenterPoint Energy's restoration may end in 2019 if necessary. While Michels Corporation will finish the natural gas line replacements in 2018, Q3 Contracting will restore the areas affected by Michels Corporation's construction. If restoration is not finished in 2018 because the weather is un conducive for permanent restoration, Q3 Contracting will temporarily restore the hard and soft surfaces affected by Michels Corporation's construction. Q3 Contracting will return in the spring 2019 construction season to permanently restore these areas.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. In addition, you can contact our Information Hotline (csv.constructionservices@centerpointenergy.com; 612-321-5369, Communication Specialist (612-321-5546), or Restoration Department (csv.restoration@centerpointenergy.com; 612-321-5042). **Please reference the Garrison Lane Neighborhood project or number 85540294.** We appreciate your business and look forward to continuing to serve you.
