NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood from mid-Sept. to Winter 2018

*Text-to-subscribe for updates regarding this construction project by sending **CNP HWY169 to 468311***

- Michels Corporation, an authorized CenterPoint Energy contractor, will install a natural gas main in the Jordan neighborhood along the following streets:
 - Highway 169 from 166th Street West to Highway 21 (Broadway Street N.);
 - Highway 21 from Highway 169 to 4th Street West
 - 4th Street West from Syndicate Street to Highway 21
 - Mertens Street from 2nd Street West (Highway 282) to 4th Street West
 - 2nd Street West from Mertens Street to just west of Creek Lane
- CenterPoint Energy's construction is expected to begin in mid-September and last until Winter 2018.
- Construction will take place in the areas highlighted below. Lane restrictions are anticipated in areas where active construction is occurring. The lane restrictions are necessary to keep both the public and construction personnel safe.
- **For additional information, please visit our Construction Zone website at: CenterPointEnergy.com/Construction.**

NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood from mid-Sept. to Winter 2018

August 30, 2018

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

Michels Corporation, an authorized CenterPoint Energy contractor, will begin installing a natural gas main in Jordan in mid-September 2018. Project construction is expected to last until Winter 2018, and the affected areas are featured on the reverse side of the page. Parking and lane restrictions are required in areas where construction activity is occurring and are necessary to keep both the public and construction personnel safe. To learn more about this project or to sign up for weekly construction updates, please visit our Construction Zone website at CenterPointEnergy.com/Construction.

Construction will happen in two phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. In addition, you can contact one of the following CenterPoint Energy resources:
