NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood April 29 – early summer 2019

*Text-to-subscribe for updates regarding this construction project by sending **CNP QUALITY** to 468311*

- CenterPoint Energy will be replacing an existing natural gas distribution main with modern materials in Lakeland from the week of April 29 to early summer 2019.
- Project construction will occur along Quality Ave. between 3rd St. S. and 6th St. N. and along 3rd St. S. between Quality Ave. and St. Croix Trail. Work will occur in segments rather than all at once.
- Lane restrictions and road closures are anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe.
- If any closures are necessary, they will be minimized. Local access will be maintained.
- Further construction will be done by contractors for the City of Lakeland's project.
- **For more information or to sign up for weekly updates, please visit CenterPoint Energy's Construction Zone website at CenterPointEnergy.com/Construction.**

NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood April 29 – early summer 2019

April 19, 2019

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy will be replacing an existing natural gas distribution main with modern materials in Minneapolis from the week of April 29 to mid-summer 2019. Project construction will occur along Quality Ave. between 3rd St. S. and 6th St. N. and along 3rd St. S. between Quality Ave. and St. Croix Trail. Work will occur in segments rather than all at once. Further construction will be done by contractors for the City of Lakeland's project.

Construction will happen in three phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is connecting the individual customer gas service lines to the new gas distribution main. This may include service line replacement and relocating gas meters from inside the home to outside. Customers will experience a short disruption of gas service as the crews are installing the gas service line. Crews may have to dig in the ground on your property in the utility easement to complete the task of service and main distribution line replacement. **Phase 3** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of lawn restoration and sidewalk or street restoration as work dictates.

Lane restrictions will be anticipated in areas where active construction is occurring and are necessary to keep both the public and construction personnel safe. If any closures are necessary, they will be minimized. Local access will be maintained. To sign up for weekly construction updates, please visit our website at CenterPointEnergy.com/Construction.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at CenterPointEnergy.com/BeSafe. In addition, you can contact one of the following CenterPoint Energy resources:

- Information Hotline at csv.constructionservices@centerpointenergy.com or 612-321-5369
- Communications Specialist, Hannah Gullickson, at 612-321-5546
- Restoration Questions at csv.restoration@centerpointenergy.com or 612-321-5042

Please reference the **Quality Avenue S. project or number 89209206**. We appreciate your business and look forward to continuing to serve you.
