## **NOTICE: CenterPoint Energy to upgrade natural gas pipelines in your neighborhood Oct. 8 – mid-December 2018**

October 3, 2018

Dear Property Owner,

At CenterPoint Energy, we are committed to providing timely and relevant information to our customers and the general public to minimize inconvenience or disruption due to our construction activities.

CenterPoint Energy's authorized contractor, Minnesota Limited, will be replacing the natural gas system in the Minneapolis neighborhood along 24<sup>th</sup> Ave. N. between Washington Ave. N. and 2<sup>nd</sup> St. N., and also between 3<sup>rd</sup> St. N. and a block west of Fremont Ave. N. Construction is expected to begin on Monday, October 8, and last until mid-December 2018. To learn more about this project or to sign up for weekly construction updates, please visit our Construction Zone website at [CenterPointEnergy.com/Construction](http://CenterPointEnergy.com/Construction).

Local businesses and residents will have access to their properties. As one to two block segments of 24th Avenue N. are affected by active construction, detour signs will be posted. As the crews will progress along 24th Avenue N., one or two of the intersections will be closed at a time and then reopened. Each closure will last from one to five business days to allow for the pipeline replacement. Detour signs will be posted. Metro Transit's bus stops may be moved one or two blocks away from the route during construction; then they will be relocated back to their original stops when the closures are lifted. Parking and lane restrictions are required in areas where construction activity is occurring and is necessary to keep both the public and construction personnel safe.

Construction will happen in two phases: **Phase 1** consists of installing the natural gas distribution main. **Phase 2** is the restoration of disturbed areas affected by our work outside the city construction zone. This may consist of soft surface restoration and sidewalk or street restoration as work dictates.

CenterPoint Energy has provided safe, clean and efficient natural gas service to Minnesota communities for more than 145 years. We are proud of this record and strive to improve it by educating the public about the benefits of natural gas at [CenterPointEnergy.com/BeSafe](http://CenterPointEnergy.com/BeSafe). In addition, you can contact one of the following CenterPoint Energy resources:
